Democratic Policy in Mississippi, Texas and Virginia—Report of a Treasury Agent—Commissioner Rollins—Appointment of Supervisors—Gen. Rawlings Convalescent—The Mexican Question.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, Aug. 19, 1868.

AFFAIRS IN MISSISSIPPI.

A letter just received from the chairman of the committee of five appointed by the Mississippi Constitutional Convention says There is evidently a strong disposition on the part of the Democratic party in the South to make an issue on the question of the right, in Mississippi and other excluded States, to vote in the approaching election. If the least encouragement is given by the President in that direction, they will undoubtedly hold an election, and it is feared the bill passed by Congress is not sufficiently explicit in all its features. He says the Republicans are anxiously expecting a reassembling of Congress in September, as their very existence as a party and as individuals depends upon some prompt and decisive measure for their relief. The proceedings of a Democratic Executive Committee of that State, at a recent meeting held in the Senate Chamber at Jackson, included a resolution to proceed at once to nominate candidates for electors, which was rejected and the following adopted in its stead:

"*Resolved*, That this committee deem it inexpedient at this time to nominate an electoral ticket for the State, but will defer a further consideration of that subject to an adjourned meeting of this body to be held in this chamber on Thursday, the 22d day of September next.

"*Resolved*, That in the opinion of this Committee the act of Congress above referred to, excluding the State of Mississippi from her right to vote in the Presidential election, is in contravention of the Constitution of the United States and the rights of the States thereunder."

Other resolutions were adopted declaring that the expulsion of Gov. Humphreys from the Executive Mansion by the military forces under General Grant to be without the authority of the law, and appointing a committee to correspond with General Grant and the President on the subject; that representative men of Southern Democratic sentiment be requested to represent the South on the Northern hustings in the present canvass, and that a committee of correspondence be appointed to bring this subject to the attention of the Democratic Committee and leading members of the party North. A committee was also appointed to prepare an address to the Democracy of the Northern States.

TREASURY AGENT REPORT.

A Treasury agent who has just returned from France has made a report of his observations in the management of the French popular loans to Secretary McCulloch. He finds these loans have been successfully negotiated without any of the watering our debt has had to sustain, without the aid of brokers, and without the expense of one per cent. commission, which, in the case of our debt, has enriched Messrs. Jay Cooke & Co., the Treasury agents, and officers here, and hundreds of others. All this is explained by a note from the Emperor, who says that he was for ten years engaged in dismissing and punishing corrupt Treasury officials. Twenty years would not rid us of corruption in the Department.

TEXAS AND VIRGINIA.

From information which has reached here from Virginia and Texas it is believed that the Democrats of these States are pursuing the same policy with those in Mississippi, of waiting until after the September session of Congress before putting their electoral tickets in the field. The full development of the plan contemplated in South Carolina and other States where the Democrats do not expect to be able to overcome the Radical majorities, of holding a separate election for white voters under the Johnson Provisional Governments, is also believed to be held in abeyance until the last of September for like reasons.

COMMISSIONER ROLLINS.

According to the testimony of numerous Democrats here, the President has determined to remove Commissioner Rollins and prefer charges against him; but it is now thought this purpose, if formed, will not be executed until after the question of a September session of Congress is settled.

FIRE DEPARTMENT.

The Washington Fire Department has been reorganized by the Fire Commissioners, and is now composed of white men, the blacks, who were employed on the coming in of the present city administration, having been dismissed.

CONVALESCENT.

General Rawlings, who had a severe attack of hemorrhage two or three days ago, has recovered sufficiently to be out, and was at the Army Headquarters for a short time this morning.

SUPERVISORS.

The appointment of Supervisors is still pending, none having been made. Commissioner Rollins intends sending over nominations for the remaining districts shortly.

HANCOCK AND ROSSEAU.

Among the visitors at the White House this morning were Generals Hancock and Rosseau, both having interviews with the President.

AGRICULTURAL DEPARTMENT.

The work of removing the office of the Agricultural Department to the new building in South Washington is progressing quite rapidly. The library and laboratory have already been removed, and by next week the Commissioner and most of the officers of the Department will have become located in the new quarters.

THE MEXICAN QUESTION.

Rumors that our Government contemplates a Protectorate over Mexico are pronounced in responsible quarters to be without foundation. The policy heretofore pursued towards that republic will be continued.

RETURNED TO THE CITY.

Chief Justice Chase has returned to Washington from Parkersburg.

Base Ball Match.

[By Telegraph to the Pittsburgh Gazette.]

LOUISVILLE, August 19.—A base ball match was played this afternoon at Cedar Hill Park, between the Union Club, of Morisiana, N. Y., and the Louisville Club, of this city, resulting in an easy victory for the former.

NEW YORK, Aug. 19.—The ocean sweepstakes of the yacht squadron at New Bedford, for $40,000, was sailed yesterday, but owing to the condition that the race should be made in five hours, it was declared off. The Palmer came home first, but not until long after the prescribed time. The course was five miles long, as sailed, with the necessary tacking. The squadron will probably disband to-day.

Early yesterday morning officer Crittenden was assaulted by a gang of rowdies at the corner of Prince and Mercer streets, and on his being reinforced a sharp fight ensued. The policemen drove off their opponents, who were led by three members of the Allen family into the St. Bernard House, where they opened out upon the officers with revolvers. Some three or four shots were fired between the parties, but no one is known to have been seriously injured. Wesley Allen and Wm. Scott, two of the assailants, were carried off to the station house, and were released on bail during the day. Allen took a solemn oath before leaving the court that he would kill Crittenden.

The Supreme Court yesterday issued an attachment against all the members of the Board of Councilmen, requiring the Sheriff to arrest them and bring them before the Court this morning for contempt in not obeying the *mandamus*, directing that Ivans, Perley, O'Brien, Lamb and Henrich be admitted to seats as members of the Board.

The 31st Annual Convention of the Diocese of Western New York was opened in St. Paul's church this morning, Bishop Cox presiding. There were one hundred and thirty-four clergymen present.

The community were startled this afternoon by the publication of an alleged fraud on the Government of a quarter of a million of dollars by a publishing house in this city. The matter has been rumored for a week past, and strenuous efforts were made to conceal the facts. It is alleged that Messrs. Thomas, Howard & Johnson, wholesale paper dealers, publishers, &c., held a contract to furnish printed blanks, envelopes, &c., to the Postoffice Department, and through collusion with A. F. Lee, late chief clerk of the Postoffice, have obtained receipts for a quarter of a million for goods furnished. Calven F. S. Thomas and James M. Johnson, of Thomas, Howard & Johnson, and A. F. Lee have been arrested and held to bail in the sum of $10,000 each. A civil suit has also been commenced.

Accounts from that quarter represent that the country remains in an unsettled condition, and though insurrectionary bands have disappeared, or been dispersed, the indications are that secret preparations of a formidable character are being made for a more extensive outbreak.

ATLANTA, GA.

Serious Disturbance—The Police Attacked By Negroes—Fire-Arms Used.

[By Telegraph to the Pittsburgh Gazette.]

ATLANTA, August 19.—The Republican celebration yesterday closed with a torchlight procession. Between ten and eleven o'clock in the evening a drunken and unruly negro was arrested by two policemen in front of the National Hotel. The police were proceeding to the guard-house when a mob of negroes pursued and attempted a rescue. The police resisted and the negroes collected, and using clubs the police were knocked down and the prisoner escaped. At this time some person in the mob gave the word to "fire," and the negroes did so, wounding a policeman. The fire was returned by the police, the discharges following in rapid succession. One negro was killed and two wounded, when the negroes fled. But they rallied again near the guard-house, and again moved forward to attack the police. By this time the whole police force and a large number of citizens were on the ground prepared for the conflict. When the negroes saw the determination to protect the lawful authorities, they rapidly dispersed. At one time apprehensions of a riot were quite serious.

Gen. O. O. Howard, Commissioner of the Freedmen's Bureau, left here last night for Vicksburg.

LETTER FROM OILDOM.

[Correspondence Pittsburgh Gazette.]

WALL STREET, OILDOM,
OTHERWISE PLEASANTVILLE,
August 18, 1868.

One who had, six years ago, toiled through the mud and ooze of the oil valley, been jostled by the crowding trains of greasy wagons, forded "the creek," then full of barges, drawn up by ragged looking teams of half-starved horses, to be floated down on the next pond fresh, and *thus* formed his ideas of oildom, would be lost here now. For the teams and their swagging drivers have disappeared, the barges are ashes, and pond freshets a tradition.

So much have railroads and pipe companies changed the scene. Pipe companies? Yes. But these pipes are neither in the tobacco or smoke way; but, buried in the ground, they connect reservoirs at the wells with others at the railroads, and silently flowing, or urged by a modest looking steam pump, thousands of barrels of oil travel miles hourly, unseen, to their train.

Now one can leave Pittsburgh in the evening, and through a pleasant rest in the new sleeping cars of the Allegheny Valley Railroad, come at daylight to Oil City, making connection with the Oil Creek and A. V. Railroad, and so breakfast in Titusville; or, if leisurely disposed, one can stop at the well-appointed Duncan House, overlooking the cast-side depot and business houses of Oil City, and come to Titusville for dinner.

The four train loads of passengers which daily reach Titusville, seeking relief from their raging (oil) fever, have choice of some thirty coaches in which to make the pleasant trip to this place; six miles of fine plank road, whose only drawback is the finely pulverized dust of the hundreds of teams lining the route.

Here the play of "Pithole City" is being daily re-enacted amid great furore, with the *role* of Pithole omitted. In fact, Pithole itself is being bodily trsnsported hither, hotels and all. A score of fine stores have sprung into existence, with large and varied stocks, and the streets are thronged by eager oil men.

Many well known Pittsburghers are here, and very successful they seem to be. Some thirty wells, ranging from twenty-five to one hundred and fifty barrels daily, have been struck here, *without a single failure.* This last is so unusually attractive a peculiarity of this territory, that leases command one half royalty, and handsome bonuses are frequent, while more than two hundred wells are going down in the immediate vicinity. As they all strike oil just below the third sand rock, at about eight hundred and fifty feet, the probability is conceded that they all tap the same reservoir; in which case it becomes an interesting problem as to how long the deposit will last, probably not more than a year or two.

This oil is delivered by pipe in Titusville, whence it is shipped east, west and north by rail, Titusville being connected with the western market by the A. & G. W. R. R., northern by the Cut Off and Lake Shore and eastward or Philadelphia and New York by the very deservedly and popular Philadelphia and Erie railroad, which forms the best route to oildom from most eastern points, as I found by experiment in a recent eastern trip.

Southward from Oildom the connection is broken for lack of a bridge at Oil City, so that Pittsburgh after all lacks *oil freight* connection with this rich territory—her natural province—and there is not even a pipe from these rich districts to Venango City, the terminus of the Allegheny Valley Railroad, though the cost of such connection would be repaid by the increased oil trade in a single month, to say nothing of the expansion of the manufacturing trade of Pittsburgh, which, by reciprocity of commerce, would surely follow.

Let the Pittsburgh oil men investigate the grave charge here made of neglect, and "when found make a note on't."

Always yours, CARRX.

Leetsdale Camp Meeting.

This beautiful grove is in the neighborhood of Sewickley, about one and a half miles from Leetsdale Station. It is located on an elevated plateau of ground, and very well shaded. Its proximity to the cosy town of Sewickley, one of the delightful places which lie near our city, has helped to swell the tide of humanity which have been attracted to the "tented grove." It is surprising how much order and comfort is secured in a short time at these places. So great is the transformation that persons are unable to realize the fact at first sight. The strict discipline enforced, and order and system adopted, is the secret of the success attained in harmonizing so many elements existing at these gatherings.

The Camp Meeting commenced on Monday, the 12th, and the first public service was held that evening. Public services, principally in hearing sermons, have been conducted day and night from that time until last evening; usually four daily services were held. Nearly two score of ministers have been present at the different stages of the meeting. The following ministers have preached: Rev. Dr. J. Williams, Presiding Elder of the district; Rev. J. Horner, Sewickley; Rev. J. M. Swan, Freedom; Rev. J. W. Baker, Allegheny; Rev. E. B. Snyder, Allegheny; Rev. W. B. Watkins, Presiding Elder of Steubenville district; Rev. J. R. Mills, New Brighton; Rev. W. H. Locke, Pittsburgh; Rev. Z. S. Weller, of Missouri; Rev. S. M. Hickman, Allegheny; Rev. J. J. McIlvar, Rev. R. Hamilton, Tarentum; Rev. S. Burt, Pittsburgh; Rev. J. M. Carr, New Philadelphia, Ohio; Rev. L. Paine, Freedom; Rev. W. Johnson, Allegheny circuit; Rev. James Hollingshead, Beaver; and Rev. S. Y. Kennedy, Temperanceville.

The following ministers were present, part of whom may preach before the meeting closes, if it is necessary: Rev. Dr. Nesbit, of *Pittsburgh Christian Advocate*; Rev. A. L. Petty, P. E. of West Pittsburgh District; Rev. N. P. Kerr, Pine Creek; Rev. D. Hartman, of Baltimore; Rev. J. McCoshin, Rev. W. Darby, Rev. J. Webster, Rev. W. Smith, Sharpsburg; Rev. R. Morrow, Bridgwater; Rev. K. Miller, Beaver, and Rev. B. F. Sawhill, Bridgewater, and others.

There are between fifty and sixty tents, as follows: sixteen from Sewickley, nine from Manchester, eleven from New Brighton, four from Freedom, four from Allegheny, and four from other points. It is estimated that from seventy to eighty persons professed to be converted. It is believed several thousand people were present on Sabbath. Good order prevailed generally. The meeting closes this morning. Great good has been accomplished. It is likely that a grove will be bought at a little point below Economy to accommodate the growing belief in camp meetings.

The Presiding Elder, Rev. Dr. J. Williams, is entitled to much credit for the excellent manner in which he conducted the meeting. The Doctor is a man of great physical endurance as well as of mental power. He is a fine theologian and of excellent pulpit parts. During these meetings he labored incessantly day and night. Rev. J. Horner, pastor of the M. E. Church, Sewickley, aided largely in starting the meeting and during its continuance, and is entitled to credit.

Quite a number of gentlemen well known in business and professional circles were constantly in attendance, and in "labors abundant," among whom we noticed John F. Dravo, Esq., and J. W. F. White, Esq., both well and favorably known in this county, and, also, D. N White, Esq., of Sewickley, Mr. Benny, of Pratt & Benny, Allegheny, Mr. Johnston, of Sewickley, Col. J. P. Kramer, of the First National Bank of Allegheny, Mr. Kerr, the well known boat builder at Freedom, and his excellent son, of the same place.

The grand *finale* comes off to-day. The meeting winds up under the most favorable circumstances, and it is believed much good has been done.

MORTGAGES.

There were ten mortgages left for record the same day.

Summer Resort Beauties.

The Altoona *Vindicator* hits the following hard slap at the young ladies stopping at Cresson: Newspaper correspondents at seaside and mountain resorts are going wild about "sylph like forms," and "magnificent nymphs," and although correspondents are as a general thing to be credited—or at least succeed in getting credit with the landlords—we do not place much credence in their stories. We visited Cresson the other day and must confess that all the "angels" we saw were artificially painted ones, and as to "sylph like forms" there appeared to be a scarcity of the commodity. They are not to be compared with the mountain girls who reside in the vicinity, and doubtless many of the city ladies would sacrifice all their wealth to be able to boast of the fine complexion and robust forms of our mountain maidens.

While heartily endorsing, we omit the writer's closing paragraph.

A Leap in the Dark.

Mr. Thomas Neville, from Morris, Grundy county, Illinois, was riding in a coal train on the Pan Handle Railroad, which arrived in the city late on Tuesday night. The train stopped for a short time on the south end of the Monongahela bridge, and Neville, thinking it was on the ground level, jumped off and fell through the trestle work to the ground below. He lay until some workmen found him yesterday morning and conveyed him to the hospital. Dr. J. H. M'Clelland, of the Surgical Staff, was sent for, and found the patient suffering from internal injuries of the chest. The man had been spitting considerable blood, and the breathing was quite labored. The back was bruised and painful, but no bones were broken. It is thought he will recover.

—At Philadelphia Tuesday evening, on the Walnut street wharf, a party of roughs assaulted a German, and an officer who went to his assistance was most unmercifully beaten, stabbed in the stomach and his nose bitten off. The officer was not expected to survive. His assailants escaped.

—Charles Reade is accused of being the vainest man in England, and the other Englishmen are not lacking in the race at all.

—Nearly a dozen new books on Abyssinia and the Abyssinian Campaign have appeared in London since the fall of Magdala.

—Sword fish swarm all along the coast of Maine, and are often caught. Can this unusual quantity of natural swords be an omen of war?

—The first correct and unabridged edition of Pepy's Diary is announced in London. This edition will contain nearly a volume more than any former one.

—Experiments on the Canadian Grand Trunk Railroad have proved that 3-18 pounds of peat are equivalent to 6-36 pounds of wood as fuel for locomotives.

—Mdle. Nillsseu receives ten sous for every note she utters on the stage, just to think of having a whole mouth full of ten cent notes, any time one pleased.

—The Richmond *Examiner* says that Governor Wise was never a secessionist. We think this will be news to every one, and especially to the ex-Governor.

—There are 800,000 inhabitants in the Grand Duchy of Hesse—Darmstardt, and twelve Generals on the retired list who draw $20,000 a year from the public funds.

—Thomas Carlyle is preparing a standard library edition of his own writings, which will soon appear in about twenty-five volumes. It will be published in this country by Scribner.

—The sardine crop has been so unusually large on some parts of the Spanish coast, that the means for preserving them proved inadequate, and many of the little fish were used as manure.

—The Japan *Gazette* says that a crab was recently brought to Yokahama which measured eleven feet eight inches from tip to tip, and was so heavy that two men could scarcely carry it.

—The Rev. Phillips Brooks, of Philadelphia, has been called to the Rectorship of Trinity Church, Boston. As Mr. Brooks is a native of Boston and a graduate of Harvard, his Philadelphia admirers fear that he may accept.

—One old English lady won one hundred thousand florins, or about ten thousand pounds, at Baden Baden, about the beginning of the season, and then, instead of losing it all again, went off to London with it as fast as she could.

—English custom house officials are gallant and do not trouble ladies much by searching them. Our advice to Fenians then is that if they want to get into Ireland safely, the pleasantest way for them to do so is to put their arms about the ladies.

—A young woman in Lewistown, Me., has become a raving maniac because she did not win the prizes at school. According to some logicians this young woman has become a lunatic from going to school, therefore, schools should be abolished.

—Frederick Whymper, the well known member of the London Alpine Club, has in press a new work called "Travels and Adventures in Alaska and on the River Yukohn," a volume which should be interesting to those who love our whole country, even the new parts.

—Patti is to remain five years on the stage after her marriage, and to retain her maiden name on the bills. The Parisian *sans culottes* would delight in bills with "Last appearance of Madame la Marquise de Caux, as Marguerite."

—An editor in Germany has been heavily fined for selling space in his editorial columns to M. Blanc, of the Homburg gambling hell. M. Blanc has filled the space he had bought with startling accounts of the heavy losses which the bank was reported to have sustained; these accounts were, of course, entirely fictitious, and only destined to attract the gudgeons to Homburg.

—During political campaigns the glorious old national banner flies from the windows or roof of every Republican newspaper office in the country, but no such emblem adorns the offices of the Democratic sheets. During the war it was the same, and the Copperhead press never issued from under the stars and stripes.

—M. de Sartiges, the French Ambassador at Rome, has been obliged to ask a guard of French soldiers for his summer residence at Frascati, so great is the insecurity of the environs of Rome. The French papers say: "He is a man capable of defending himself, for he lived long at Washington, the land of revolver shooting."

—The Pope is said to be much interested in the Queen of Spain and to desire an interview. In the meantime, the gods seem to wish to destroy that monarch, as she drinks her sherry and deports herself unbecomingly on the brink of the yawningest gulf that threatens any living sovereign. In fact she is depreciating rapidly; and though now a sovereign, she bids fair to soon not be worth half a crown.

—A Virginia paper says: A sort of distemper which has generally proved fatal to them in various portions of the State, has broken out among the foxes. In Stafford county, which was up to a few months ago nearly overrun with them, and where in consequence rabbits, partridges, and other small game were nearly cleaned out, foxes have been found lying dead in the road and under bushes in large numbers.

—At the Erie railroad car shop is being built a passenger car of novel style and unusual capacity. It is sixty-seven feet in length, divided into three compartments; has a drawing room in the centre, sleeping apartments at the end and a regular day-coach compartment at the other. It will cost twenty thousand dollars, and will be, it is claimed, the largest and one of the most elegant passenger cars on any road in this country.

—The Warrensburg (Mo.) *Journal* complains of frequent outrages committed in that town on Saturday's when parties armed with huge revolvers mount their horses, draw their weapons, form in lines, curse everybody, profanely defy the officers and having created general consternation, ride furiously home. On one of these occasions recently an inoffensive citizen was cruelly and inhumanly beaten, and no arrests were made.

—Tom Hood, editor of the London *Fun*, in a review of Saxe's new book of poems, praises the author as the most excellent and the most English of American humorists; and another critic yields the palm among contemporary writers of *vers de societe* to Yankee poets, in these words: "The two best living writers of lively, witty English verse, such as Prior and Praed excelled in, are Saxe and Holmes—two Americans and, to us, foreigners."

—Henry Ward Beecher gets $15,000 a year altogether and manages to put it all away, as it is proper for him to do, and it is a great pity that some of our other pastors don't have as much. When a man studies five years to be able to enter college, four years at college and two at his theological seminary, he invests eleven years of capital for which $300 per annum can hardly be considered sufficient interest even though he be neither as brilliant as a Beecher nor as profound as a Wayland.

—The celebrated Professor Bock, of Leipzig, one of the greatest German physicians, wages an inexorable and highly successful war against all sorts of patent medicines and nostrums. Whenever a new panacea of this description makes its appearance in the market, Dr. Bock examines it, and then publishes the ingredients of which it is composed, and what it costs the manufacturers to get it up. In this manner the sale of German patent medicines has lately much decreased. Why is there no American Professor Bock?

—*Sorrento* is the name of a poem which Bayard Taylor has contributed to the September number of *Lippincott's Magazine*. This Magazine seems to have a happy faculty of getting the best new poems as they come out. Only a few months since Swinburn's greatest effort and now *Sorrento*. But this number excels in prose and is really an excellent one; barring an atrocious conundrum in a characteristic article by Miss Kate Field, we think there is nothing in it that will not prove acceptable to many readers. We are really glad that Pennsylvania can boast of the only dangerous rival which *Putnam's Magazine* has, and congratulate the greatest publishing house in the Keystone State on the success of its periodical.

—A petroleum establishment in Leipsic, besides various forms of apparatus for refining petroleum and producing petroleum gas, advertises the following chemical products: *Alcannine*, for coloring fats and oils; *Scarlatine*, for dyeing wool and silk, as well as for color-printing of books and plates; *Petroleum-ether*, for therapeutic and technological purposes; *Benzine*, of any degree of fluidity, clear as water and perfectly free from smell; *Ligroin*, for burning in sponge lamps; *Artificial oil of turpentine*, for waxed cloth and varnish fabrics, as well as for the cleansing of type and printers' forms; *Refined Petroleum*, almost inodorous, and *Petroleum-residium*, for gas making.

—The Boston *Post* says: "Radical intolerance is cropping out in one of its old and well-known forms at Biddeford, Me., where, as the Portland *Argus* says, Mr. McMuller, agent of the Saco Water Power Machine Co., declared his intention of discharging from his employ every man who voted against the Radical candidate for Congress. There is something peculiarly abominable in this style of coercion which disgusts every one possessed of the spirit of a freeman." And yet the Boston *Post* thinks Southerners do perfectly right when they refuse to employ negroes who will vote the Radical ticket, and applauds them to the echo. Surely consistency is a jewel which does not adorn the Copperhead's brow.

Financial Matters in New York.

Gold Closed at 144½.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, August 18.

Money rather more active at 4@5c on call. Sterling quiet at 9½@9½c. Gold lower and dull, opened at 45⅝, and after considerable fluctuation closed at 44¾@44½. Exports, $76,000.

GOVERNMENTS.

Government Stocks lower but closed about steady. Coupons of 1881, 113¾@114¼; do. 1862, 113@113¼; do. '64, 108¾@109; do. '65, 111@111¼; do. new, 107¾@108; do. '67, 107¾@107½; do, '68, 107½@107¾; 0-408, 109¾109¼.

RAILWAY SHARES.

Stocks firmer and unsettled, and many were forced to be sold in consequence of margins having been constituted. Erie sold as low as 45¼, and New York Central at 122. Report says the Erie Company have closed their transfer book, preparatory to the October election, so as to insure the election of the Gould party. Express Shares are lower, rumor of an assessment proving unfounded. The miscellaneous list is dull. State Bonds quiet.

PITTSBURGH WOOL MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, August 19, 1868.

The receipts of wool during the past week show a considerable falling off compared with those of the previous week. No changes have occurred in prices, although they are firm at quotation. The financial case of the last few months has materially contributed to the activity which has prevailed, and has enabled dealers to buy larger stocks than they otherwise would. The amount of wool bought up this season so far has been fully equal, if not in excess, of any previous year. The market to-day is firm for desirable grades. We furnish here with current prices for the various grades enumerated: Unwashed, 25 to 27c; pulled wool, 30c; very clean toll wool, 41c; fleece, common to one-fourth blood, 35 to 37c; one-fourth to one-half, 38 to 40c; one-half to three-fourths blood, 40 to 43c, and three-fourths, to full blood, 43 to 45. None but fine and handsome fleeces will realize outside quotations.

RIVER NEWS.

—The Dubuque *Times* says that the stock of the Northern Line Packet Company is valued at 300 per cent. all the year round.

—The Memphis and St. Louis Packet Company will inaugurate the restaurant saystem in their line this week, beginning with the Belle Memphis.

—The underwriters are busily engaged wrecking the ill-fated steamer Mattie Burns, recently sunk above Cairo. They will save some of the furniture and the machinery.

—Captain W. M. Williams has on exhibition at Vicksburg, a beautiful bell-rope, which he proposes to present to the boat carrying the largest trip of cotton into New Orleans the coming season.

—A dispatch received at Cincinnati on Monday, stated that the mate of the Government snagboat J. J. Abert undertook to pilot her from Cairo to Mound City to lay her up, and run her into a tow of barges, which mashed in her wheel house.

—The J. C. Crossley, a little boat having a capacity of about 400 tuns, passed Cincinnati for Greenupsburg on Monday. She was built at Madison for the Greenupsburg and Gallipolis trade, and was only drawing about twelve inches of water with her coal aboard.

—A telegram from Marietta (Ohio) under date of Monday says: River 2 feet 9 inches, and falling. The Mary Erwin left for Cincinnati at noon. The Lena May is hard aground at Bearsville, and the Camelia at Carpenter's Bar. The Golden Era and Camelia collided, tearing away the Camelia's guards. The Wm. Butler passed down yesterday. Clear and warm; thermometer 81 deg.

—The St. Louis *Times* of Sunday says: Business during the week has been fair, and nearly all trades constantly increasing. Freights for New Orleans have been as abundant as could be expected. The Upper Mississippi business is good, but there is so much opposition in that direction that neither one of the lines is making any great amount of money. The Illinois boats are having all the business they can transact on the water, which is very low. In the Missouri River business, is a little slack at present.

—We clip the following from the Cincinnati *Gazette*, of Tuesday: John Robinson's circus boat, Coosa, arrived from Johnsonville Sunday evening. The Coosa left here first April 18th, and went up the Ohio river as far as Rochester, twenty-eight miles below Pittsburg. Returning, she went up the Kanawha to Charlestown, and then came back to Cincinnati. On the 22d of May she started down the Ohio, and has since navigated the Tennessee 110 miles to Johnsonville, the Mississippi to St. Paul, and St. Troy Lake 30 miles. Altogether, her trip covers a distance of 4,500 miles. During the whole season, and notwithstanding the extremely warm weather, only two cases of sickness on board are reported. It has been reported that she is for sale, but it is more likely that she will be chartered to carry Haight & Chambers' circus.

A GREAT CURE OF ASTHMA.

I feel myself under obligations to you, as well as a duty I owe to others who have been like sufferers with myself, in order that they may know where they can get cured, I had been subject to violent, continued attacks of ASTHMA for more than six years, and had been to great expense and to various medical men of experience without obtaining any permanent relief, or relieved at all. I was so bad that I never knew what it was to be free from the disease. I had to sit up in bed every night for weeks and weeks, without any prospect or hope of cure. My condition was such that I felt life a burthen, and when I got an attack I felt in danger of suffocating every moment. So terrible had been my suffering that my mother says that she has seen me so near suffocation that I was nearly black in the face from the desperate efforts made to get breath. In the cold winter nights, many a night, with the doors and windows of the house thrown wide open, in order to hinder the apparent danger of strangulation. In this condition, on the 13th of October, 1866, having heard of DR. KEYSER'S skill in curing this disease, I called on him, in company with my husband, Joseph Meyers, but I must confess with a great deal of doubt as to effecting a permanent cure. DR. KEYSER examined me carefully, and my lungs all over, with his LUNG SOUND, and told me that with care I would get well. I persevered with his medicines for over a year, and am to-day in vigorous health, and totally FREE FROM THE ASTHMA, and its terribly disagreeable attendants. I have had, once in a while, a slight attack of the disease, but I regard my health as entirely re-established, and if I do have any attack, a few doses of the Doctor's medicine immediately relieves cannot feel too thankful for the exemption from a disease which used to cost me whole weeks and months of loss of sleep, besides suffering which none but those who are subject to this disease can fully appreciate or describe.

NANCY MEYERS, MARY MOUNT JOY, (her mother,) GEORGIANA FISHER.

Birmingham, Dec. 9, 1867.

The case of Mrs. Meyers, recited above, is one of more than ordinary importance, because of the violence of the attacks, their continued length, and the great prostration of all the vital powers attending the disease. Any one who knew her during the time she was a sufferer from the disease of which she was cured, and will look at her now, the very picture of robust health, cannot but admit that the cure is one of more than ordinary character, inasmuch as we hear of Asthma every day of our lives, being a disease of an incurable nature. Let those who doubt investigate for themselves.

SIGHT RESTORED.

The case to which we allnded some weeks ago, of Christiana Fisher, of Beaver county, is now entirely confirmed by the appearance of Mies Fisher herself, who to-day called on DR. KEYSER in person, to thank him for his kindness and skill in restoring her to ENTIRE AND PERFECT SIGHT. Miss Fisher has been nearly blind for four months. She was so blind that she could not distinguish any object so as to make out what it was. The case is remarkable, as hundreds of cases like her's are doomed to never-ending darkness, on the flimsy pretext that there is no cure, and nothing can be done, She was under DR. KEYSER'S treatment for two months, and before she applied to him, through her brother, Simon P. Fisher, slight hopes were entertained of her ever getting her sight. Her case is well known in the ne

GOLD closed in New York yesterday at 144¼.

GEN. JAMES L. SELFRIDGE, clerk of the House of Representatives, is lying dangerously ill in Cambria county.

DIDN'T the *Post* find Mr. GROW's card, published in these columns yesterday, sufficiently explicit? It has then either to make good its charges---which it cannot do---or stand branded as a gross and criminal calumniator.

WHEN Congress proposed to reduce the public debt still further by its new Funding bill, the President, who is said to be a supporter of SEYMOUR and BLAIR, killed the bill by his pocket veto. The new bill would have largely reduced our annual payments in the way of interest, but our Democratic President objected to it, and, perhaps, if the real truth were known, for that very reason.

OUR CITIZENS are united in the desire to honor CARL SCHURZ, the German orator, scholar and patriot, with such a welcome as will make him feel that his noble efforts in the cause of liberty are fully appreciated in this section of country. Although the arrangements for his reception next Monday night are in the hands of our public spirited German fellow citizens, still all classes of our citizens will participate in the affair.

THERE is hardly a village from one end of Pennsylvania to the other, but contains a GRANT and COLFAX Club. Never before in the Commonwealth were the people so thoroughly aroused and organized to secure the triumph of Republican principles. Our State may be set down as certain to give at least twenty thousand majority for HARTRANFT and CAMPBELL in October, and nearly double that number for GRANT and COLFAX in November.

IT HAS been remarked as a fact worthy of note that nearly all of the active, intelligent, enterprising and public-spirited young men of the city who will cast their yirgin vote for President next fall, have enrolled their names among the supporters of GRANT and COLFAX. They fully realize the importance of the issue, and are not willing to be recognized in the ranks of the old worn out, faded and corrupt Democratic party, which calls progression a sin, repudiation a virtue, and revolution a panacea for all national difficulties.

A MOVEMENT has been initiated at Cincinnati, which proposes to combine the useful with the agreeable, in the guise of a Congressional steamboat excursion from Pittsburgh to New Orleans and back. A suitable boat is to be engaged for the party, at some date prior to the commencement of the next session, when the rivers may be in good navigable stage, and the Congressmen are to be afforded, in a personal inspection of these streams, the opportunity to become entirely familiar with the practical bearings of all the important questions concerning the improvement of navigation, as well as its obstruction by railway bridges and otherwise. A preliminary meeting of the projectors has been already held at Cincinnati, and it was made evident that the idea was generally approved, and that the excursion will be fairly inaugurated.

CANDIDATE FOR CONGRESS IN THE XXIIId DISTRICT.

After repeated meetings and ballotings, the Conferees of Armstrong and Butler counties, together with that portion of Allegheny county lying west and north of the Allegheny and Ohio rivers, which, combined, make up the 23d district, have put in nomination DARWIN PHELPS, Esq., of Armstrong county.

Each county, by its primary action, made choice of one of its own citizens, and instructed their Conferees accordingly. Allegheny presented the name of Hon. THOMAS WILLIAMS, Butler that of EBENEZER MCJUNKIN, Esq., of Butler, and Armstrong that of DARWIN PHELPS, Esq., of Kittanning—all good men. The district would have been well represented had the choice fallen upon any of them. All are members of the bar, and all men of talents, good speakers, and genuine Republicans; and the tenacity with which the friends of each adhered to him in conference shows how he is appreciated in his own county.

Mr. PHELPS, the nominee, is now, we think, between fifty and sixty years of age, and has resided in Kittanning a little over thirty years, where he has long held a high position at the bar. His moral character is without a stain, and never is he more earnest and eloquent than when pleading the cause of benevolence, temperance, justice and patriotism. To ripe scholarship he adds natural gifts of a high order, while his personal presence and his manners as a gentleman will command instant respect wherever he may go.

In early life Mr. PHELPS resided in one of the northeastern counties of Ohio; but while yet a boy he removed to this city. He was educated in the Western University, while that institution was presided over by Dr. BRUCE. After graduating he entered the law office of the Hon. WALTER FORWARD, who continued to be among his warmest friends through the remainder of his life. It was soon after his admission to the bar that he removed to Kittanning.

Some years ago Mr. PHELPS represented Armstrong county in the Legislature, elected by the Whigs, and so popular did he become during his first and only session, that he was nominated by the State Convention of his party, in 1854, as candidate for Auditor General almost by acclamation. Our State ticket did not succeed that year, and Mr. PHELPS has remained in private life ever since.

He will make an able, attentive, obliging and perfectly reliable Representative, for of course his district will elect him.

Hon. THOMAS WILLIAMS, who, as representative of that district, is now in his third term, has made a reputation which will give him a place among the historic men of the nation. The change in representation is not made because his constituents in any portion of the district disapproved of the leading part he took in the great questions connected with reconstruction, and the impeachment of the President; but on the contrary this consideration gave him strength. This fraction of Allegheny county has had the member of Congress for ten consecusive years; while Butler has not had one for the same length of time, and Armstrong has had none for at least thirty years. That was the reason of the change. Whether it is a good reason, is a point upon which men may honestly differ.

MEXICO—A NEW POLICY.

When the President nominated General ROSECRANS for the Madrid mission, and MCCLERNAND for Mexico, it was patent to every one that neither he nor any one else regarded the confirmation of either as within the range of any possibility. The nominees were men so entirely dissimilar in all their personal and political antecedents, so entirely the antipodes of each other, in the way of personal merit and qualifications for the important duty of representing the Republic with foreign nations, so unequally possessing the confidence of our own people, and, moreover, the position of affairs as to the two missions presented such a radical difference, that the President's action excited universal surprise and curiosity. While ROSECRANS was altogether unexceptionable, personally and politically, to the country and to the Senate, the other nominee was one of the last men whose selection could be approved of by either. The Madrid mission was already acceptably filled by Hon. JOHN P. HALE, against whom not a whisper of public, official or international complaint had been heard, while the Mexican embassy had been practically vacant for years, although the internal condition of that country, and the very precarious state of its relations with our own, its close and powerful neighbor, and the intricate and embarrassing complications growing out of the very free commercial and personal intercourse of the two populations, presented the most urgent reasons for supplying the vacancy without farther delay, and in the person of some wise and capable diplomatist. Why, then, should Mr. JOHNSON needlessly seek to disturb the settled and agreeable relations at Madrid, knowing that the concurrence of the Senate would be refused? Why should he, also, delay the adjustment of the pressing questions with Mexico, by trifling away the closing hours of his Senatorial Council in the bootless nomination of a politician so disreputable, of a citizen enjoying popular confidence so little, as does JOHN A. MCCLERNAND?

The proper answers to these queries are afforded by subsequent events. The Senate refused to recall Mr. HALE, and it declined to send out the Illinois adventurer to Mexico. This was as the public expected. Immediately, then, the lantern was turned, and General ROSECRANS was nominated again, but, this time for Mexico, and the Senate hastened to mark its appreciation of valuable services rendered in the past, and its regrets for the necessity of the previous rejection, by an unanimous confirmation.

Remembering that General ROSECRANS had, since leaving the army, become a resident on the Pacific Coast, and recalling to mind the frequent public statements, made within the past twelve months, of his connection with certain schemes for colonization and territorial acquisition in the northwestern Mexican States bordering on the Coast and the Californian Gulf—schemes vaguely hinted at, but evidently vast in their comprehension—we were inclined, in announcing his appointment to his mission, to advert to these rumors, and to suggest that some connection would yet show their real relation to his new diplomatic trust. But the suggestion was forborne, because it would have seemed to imply some sort of reflection upon the private and, therefore, sinister relations of the President, his Cabinet or General ROSECRANS, to that combination of capitalists—which, according to rumor, had long since arranged a plan for the absorption of those provinces. It cannot be forgotten that this plan was publicly announced and attracted much attention last year, and that even the details of the arrangement which had been consummated with President JUAREZ, were made known to the public, and that the names of our own public men, in and out of office, who were parties to it, were freely used.

Another chapter in the programme has opened upon us. Late dispatches from Washington state that the instructions for the new Minister have been prepared and that they embrace the contingency of what is styled a "protectorate" over four or five of the Mexican provinces *i. e.* it is intended to absorb those provinces; absolutely and forever, under the cover of a nominal concession by Mexico of the American right to protect the interests of our citizens colonizing the same. This reveals the entire shape and aim of this new scheme, for the more effectual accomplishment of which GEN. ROSECRANS, himself no doubt, probably a party in interest, has been expressly entrusted with the Mexican mission. His previous nomination to Madrid was merely for a blind, and it accomplished its object.

There are good reasons for believing that the influence and power, attaching to this mission as to any other which personally embodies the dignity and influence of the Republic in its official representative at any foreign Capital, are to be used to promote a gigantic land speculation, in the interests of certain of our capitalists and public men; that individuals very high in office at Washington, and even in Mr. JOHNSON'S Cabinet are privately interested in the scheme; that, in order to accomplish the acquisition by this clique, of those territories,—rich as they are, almost beyond conception, in mineral and agricultural resources, and presenting such conspicuous advantages for the extension of our domain southward along that coast. The traditional and well-known prejudices of the Mexican people are to be disregarded, and the "protectorate" is to be put through, at the expense of that war which must inevitably follow. For nothing is more safely to be predicted than that the disclosure of this scheme, to strip from Mexico these or any other of her States, would be followed by another of her frequent revolutions, JUAREZ would be driven from power, and that people, wretchedly factious as they are when left to themselves, would, as in all times past, be united instantly to a man in their jealous resistance to the hated Yankee encroachments.

The new "policy" which Minister ROSECRANS is to carry out, means therefore the prostitution of the honor, influence and power of this Republic in the service of a corrupt combination of a few of our own citizens, in and out of Federal office; it means the completion of a private bargain which an equally corrupt Mexican official has sold himself and his country for; it means either a war with the neighboring nation within the next twelve month, or that we are about *to rob*, with the strong hand, a neighboring and helpless people.

We sincerely hope that all the American press will unite with us in denouncing this infamous intrigue, and in invoking for it an early and searching examination by Congress.

A WORKINGMAN'S QUERIES.

The annexed communication, addressed to Mr. ANDREW BURTT, the Democratic candidate for Congress in the XXIId District, comes to us from a responsible source, and presents enquiries which seem to be entitled to an answer from that gentleman. The workingmen of the District will await his public reply, with a curious interest. Our correspondent writes:

PITTSBURGH, August 18, 1868.

Messrs. Editors of Gazette.—I take considerable interest in the Labor question, which has lately been introduced into politics. Observing that one of our parties has nominated a candidate who professes himself to be especially the workingman's friend, please allow us to present to him the following enquiries through your paper:

To Hon. ANDREW BURTT—*Sir:* Please oblige a large number of workingmen with replies to a few enquiries:

1st, Are you in favor of making eight hours a legal day's work without reduction of wages? Please say Yes or No, and if not, why not?

2nd. Would you make such a law applicable to all classes of labor, male or female, in the shop or on the farm? And, if not, why not.

A public reply to these questions is respectfully solicited from you, at your earliest convenience. A WORKMAN.

THE New York *Citizen*, a journal which supports FRANK BLAIR, has "heard enough from WADE HAMPTON, COBB, TOOMBS, WISE and SEMMES, and does not like to accept them as the sole exponents of Southern ideas." It wishes to hear of some "prominent rebel so far converted and enlightened that he looks upon the lost cause as actually lost, and not capable of ressuscitation." This curiosity is very natural, but we fear that it may never be satisfied within the pale of the Southern Democracy. These, to a man, agree with VANCE that the lost cause is about to be regained in the election of SEYMOUR and BLAIR. Nor are the editors of the *Citizen* the only Democrats who have heard enough from the incendiary propagandists of a new rebellion. The disgust which their violent declarations have excited is shared by thousands of the Democracy, whose quiet votes in November will show that they intend to do no part in the new crusade against the integrity of the Union and the public peace.

SOMETHING FOR THE FARMER.

The new Democratic raid against the farmers, which, under the pretense of equal taxation, advocates the assessment of lands at their full value, and their liability to an equal share of the public burthens, is very clearly declared in the New York Platform. VALLANDIGHAM of Ohio, who was a leading spirit in that National Convention, is now a candidate for Congress in his own district. To make this idea still more clear, if possible, he submitted some resolutions to a Democratic Convention at Dayton, a few days since, and the same were adopted, one of them reading as follows:

"*Resolved*, That we are in favor of equalizing the burdens of the people upon all classes of property, and regard, as a fundamental principle of free government, which no legislative body has the right to violate, that no species of property that is created or can claim protection by the laws, can be properly and lawfully exempted from its due share of the public burdens."

Will some Democrat explain to us how, under this resolution and under the New York Platform, the lands and farm products of the agricultural classes are to escape from taxation, dollar for dollar, according to their real value, the same as other property? Are they so taxed now? And how, too, shall it be with the workingman's home—his house and lot which embody his savings for years?

STATE POLITICS.

The Republicans of Lancaster county, notwithstanding his death, renominated Mr. STEVENS for Congress, as a last testimonial of respect. Mr. O. J. DICKEY, who will probably be his successor, is a native of Beaver county, and his father was for several years in Congress. His mother, brothers and sisters live in or near New Brighton.

The Lancaster Republicans nominated G. C. GATCHELL, W. W. HOPKINS, JACOB G. PATERS and AARON H. SUMNEY for Assembly.

The Democrats of Adams county have nominated WILLIAM MCLEAN for Congress, JOSEPH P. MCDAVITT for the State Senate, and A. B. DILL for Assembly. Whether the other counties of the Senatorial district will ratify the nomination of MCDAVITT is yet to be seen. DUNCAN, whom MCCONAUGHEY ejected from the seat, proposes to try his luck again.

The Republicans of the same county have nominated JOHN CESSNA for Congress; WILLIAM DIXON, of Franklin county, for State Senate, and CHARLES MILLER for Assembly. This ensures CESSNA'S nomination in the district.

In the 14th Congressional District, J. B. PACKER, Republican, has carried Snyder county against MILLER, the incumbent. Union county has gone for MILLER, and Juniata county for JOHN J. PATTERSON, We mentioned a few days ago that PACKER had Northumberland. Dauphin declared for him yesterday, making him the candidate.

P. GRAY MEEK is the Democratic candidate for Assembly in Centre county. He is editor of the Bellefonte *Watchman*.

THE OHIO REPUBLICANS have completed their Congressional nominations, as follows: Ist District—*Benjamin Eggleston. II—Job E. Stevenson. III—*Robert C. Schenck. IV—*Wm. Lawrence. V—T. E. Grissell. VI—John A. Smith. VII—John J. Winans, VIII—*John Beatty. IX—W. H. Gibson. X—*Jas. M. Ashley. XI—*John T. Wilson: XII—N. G. Turney. XIII—Charles Cooper. XIV*Martin Welker. XV—E. H. Moore. XVI—*John A. Bingham. XVII—J. A. Ambler. XVIII—W. H. Upson. XIX—*James A. Garfield. The asterisk denotes the nine of the sixteen Republican members of Congress who have been renominated. Messrs. Spalding, Shellabarger, Eckley, Delano and Plants, five of the most useful members, declined re-nominations, and two, Messrs. Clarke and Buckland, were candidates for re-nomination but were defeated. The Democratic nominations are not yet complete. The Cleveland *Leader*, to which we are indebted for these facts, says that Vallandigham will be the candidate against Schenck in the IIId. We are sure of fourteen of the new members, with a fair chance for two more.

A NEW YORK letter to the Chicago *Journal* has the following: Day before yesterday Major General Hancock, General Francis Gordon Granger, Colonel G. Garnet, and three or four other gentlemen, were together in social converse at the Ocean House, Newport. It was finally proposed, by one of the number, that they should drink to the flag. Colonel Garnet said: "Well, I don't know, gentlemen, but I happened to be fighting on the wrong side." "As for that matter," immediately rejoined General Hancock, "I don't know but we were all fighting on the wrong side." And this is the man whom the Democrats proposed at one time to make their Presidential nominee! These are the types of "Generals" who support the revolutionary Blair!

The Fire Alarm Telegraph Bell.

MESSRS. EDITORS GAZETTE:—Through the medium of your valuable journal I wish to call attention to the present abuse of the Fire Alarm Telegraph in regard to sounding the alarm of fire on the "big bell." Under a new system the use of the bell has almost been discarded, only being sounded for alarms coming from localities in the heart of the city. We wish to tell those gentlemen whose duty it is to make rules for the Fire Alarm Telegraph that a large number of tax payers own and are otherwise interested in property in the upper wards of the city, and believe they have the right to *demand* that the alarm of fire from those localities be sounded on the "big bell." The explanation already given for not using the bell in every case, is weak and, for the credit of the fire department, should not be repeated. Now, in conclusion, I wish the proper authorities would see what a valuable institution the "big bell" is to the residents here who own manufactories and other valuable property in the upper wards, and abolish the present system. Let the "big bell" be used for the sole purpose for which it was put up, namely, to notify the public of fires in any locality of the city. SUBSCRIBER.

—Additional advices from Port au Prince state that the planters of the Republic have been compelled to sell their coffee to President Solnave's agents at a very cheap rate. The excesses committed on peaceable inhabitants are of a most outrageous character. Solnave seems to spurn the protests of foreign Consuls who demand satisfaction for injuries done to the subjects of their respective Governments. He is, however contemplating abdication and flight to, Turks Island. The capture of the Sylvania with Solnave's baggage and family aboard is confirmed. The revolution seems to be triumphant.

SEYMOUR AND "THESE BONDS."

We are not quite sure that the Pittsburgh *Post* published any portion of the speech which HORATIO SEYMOUR delivered on financial questions before the Democratic State Convention, at Albany, in January last. But we are quite convinced that no amount of money, short of an independent fortune—and probably not even that—could hire our neighbors now to reprint these extracts from the speech which its candidate made just six months ago. If the *Post* won't print them, will it oblige us by admitting or denying that we quote Mr. SEYMOUR correctly?

Talking of the public debt and taxation, he said:

"It is a mistake to suppose that the bonds are mostly held by capitalists. Large sums belonging to children and widows under the order of the courts, or the action of trustees, have been invested in Government bonds. The vast amounts held by Life and Fire insurance Companies and savings banks, are, in fact, held in trust for, and are the reliance of the great body of active business and laboring men or women, or of widows and orphans. The savings banks of this State, are the depositaries of the poor, or of persons of limited means, hold about $60,000,000 of Government bonds. The whole amount held in the State of New York, in the various forms of trust, will not fall below $200,000,000. If we look into other States we shall see that only a small share of these bonds are held by men known as capitalists. But they belong in fact, if not in form, to the business, the active and laboring members of society. The destruction of these securities would make a wide spread ruin and distress which would reach into every workshop and every home however humble. * * * Whatever our views may be, the payment of this debt will fall upon the future. Do what we may, a generation that will come after us, will decide its mode of payment and without regard to anything that we may say. The depressed industry of our land, its suffering labor, demand that the load of taxation be lightened. There is a perfect accord in the Democratic ranks as to the policy, and need of honesty, and economy; but there is some difference of opinion as to the construction of the contract with the public creditor. Some hold that it is right, and that it is due to the tax payers, that we should save what we can by paying the principal of the debt in currency; but they underrate the force of their own arguments. It is a mistake to suppose that the interests of the bondholder and tax payers are antagonistic. The fact is overlooked that in order to make any saving by giving the bondholder a debased and worthless paper we would bring upon ourselves disaster and dishonor which will cost a hundred fold what we can save. It means that we are to give to the laborer for his toil a base currency; it means that the honor of our country shall be stained; it means that our business shall be kept in uncertainty and confusion; it means that the laboring man shall suffer by the increased cost of the comforts of life; it means that the tax payers shall be burdened by a Government proved to be corrupt and imbecile by this very depreciation of its money. We can't afford to speculate upon the Nation's honor at so fearful a cost.

AMONG the speakers at the Republican meeting at Cincinnati, the other night, were M. P. Gaddis, lately a Johnson Conservative, and Isaac J. Neal, one of Mr. Cary's principal supporters last fall. Both are good speakers and will work during the canvass for the Republican nominees.

IS YOUR DISEASE RHEUMATISM?

Many persons, supposing they are suffering from this disease, have applied Liniments, Plasters and other Rheumatic Remedies without obtaining any relief, when in fact the cause of pain is a derangement of the Kidneys. These are small organs, but very important, and any obstruction or interference with its functions are indicated by pain in the back and loins, languor and weakness, difficulty in avoiding and unnatural color of the urine. A Diuretic should at once be resorted to.

THE BODY RENEWED.

According to Physiologists, the human body is renewed once in seven years. Every day, every hour, every moment, the flesh, the cartilage, bone and muscle of the frame are wasting away, and being imperceptibly replaced by new material. Health depends upon the nature of that material, and whether it shall be pure or diseased, full of vitality and elasticity, or feeble and flaccid, depends mainly upon the action of the stomach. In warm weather the waste of the system is very rapid, and if it is not as rapidly repaired by the great sustaining organ, the consequence is debility, emaciation and decay. It is, therefore, of paramount importance that the stomach be kept in a vigorous condition at this trying season, and the safest, surest and best tonic that can be employed for that purpose is HOSTETTER'S BITTERS. This incomparable vegetable stomachic gives unwonted energy to the digestive powers, promotes the conversion of the food into healthful blood, (which is, so to speak, the raw material of all the solid portions of the body,) and thereby puts the system in the best possible state of defence against epidemic or other diseases. The strong require it to keep up their strength; the weak, to re-invigorate them. It consists of the purest of all diffusive stimulants, charged with the juices and extracts of the most genial roots and herbs, and is a permanent restorative—not a mere temporary excitant. It acts simultaneously upon the stomach, the bowels and the liver, and is the best known remedy for dyspepsia, biliousness, costiveness and general debility.

CHRONIC DISEASES OF THE EAR.

In observations and notes taken by Dr. KEYSER, of this city, on the various diseases of the ear, he says that nine out of ten cases could be cured in their incipiency if application were made to some responsible and competent aural surgeon. The Doctor quotes from the opinion of Wilde, a well known aural surgeon, who says: "I fear not to reiterate the assertion which I made on several former occasions, that if the disease of the ear were as well studied or understood by the generality of practitioners, and as early attended to as those of the eye, it would be found that they were just as much within the pale of scientific treatment. * * Deafness is so common and so distressing an infirmity, and when of long standing so incurable, that we cannot too strongly urge all medical practitioners to make themselves familiar with the treatment of the diseases of the ear."

The Doctor says that nearly all annoying Discharges, Buzzings and Morbid Growths peculiar to the organ of the hearing, some of which had lingered through a score or two of years, can be cured or ameliorated by proper treatment.

CHAPERONES.

There exists in society a class of beings whose wrongs—patiently and amiably as they appear to be borne—deserve some consideration at the hands of every one who posesses the smallest spark of sympathy for his fellow creatures, and that is the estimable and much enduring race to whom is given the distinctive title of Chaperones. It would be an interesting and valuable addition to contemporary literature were some diligent person to devote all his powers of mind and energy of purpose to the discovery of the origin and nature of their existence. In the absence, however, of such work we must be content with what little can be gleaned from observation and experience. As to their origin it would be useless here to bestow much attention. Now as to their purpose. It must be supposed that they are intended to protect and look after the giddy damsels intrusted to their care, it being assumed that these damsels are perfectly incapable of taking care of themselves, or else that there is a doubt as to the propriety they would observe in their intercourse with the men they are likely to be thrown among. Two young ladies happen to be asked to a dance at a friend's house; they cannot go unless they are escorted by their mother, or some female who has the requisite qualifications of old age and being married; so some old woman, whose proper place would be in bed, or, at any rate attending to duties of a more serious character, is to be dragged out and kept for five or six hours staring in tired and restless impatience at a party of young people supposed to be enjoying themselves by undergoing a vast amount of unnecessary heat and fatigue. It is only reasonable to infer that in a friend's house young ladies would be just as safe—of however violent a disposition—as in their own homes. The men they meet there, from the fact of their being received in society, are presumed to be gentlemen, and consequently of unexceptionable character. What necessity therefore should there be to inflict such a heavy penalty on aged women, to the serious injury of their health and the undoubted shortening of their lives? An ordinary London girl who has seen two or three seasons is the last person in the world to make a fool of herself; she is far too experienced and far too knowing. Moreover, as a rule, she would care about as much for the admonitions or remonstrances of her mother as she would a tom cat; her ordinary demeanor toward her respected parent is at once insolent and ungracious. The scenes that nightly take place at this time of the year, toward the fag end of the evening, are calculated to impress a contemplative and observant mind with anything but an exalted notion of the perfectibility of the female character. Tired and anxious mothers rush up to their daughters with a "Now, my dear, you positively must go; it's getting very late, and the carriage has been waiting these two hours." To this plaintive appeal the dutiful and interesting young creature would probably deign no answer whatever, but at once glide off into the maze of the seductive dance. Again does the persistent and much wronged mother, watching her opportunity attack her daughter. This time she will perhaps be favored with an answer much to this effect: "I wish you wouldn't bother; I'm not going yet I can tell you." The poor mother has again to retire to her seat, sick at heart and half dead with fatigue, consoled only by the idea that perhaps her dear Julie is managing to entrap some guileless and gilded youth. After a time, and after much exertion, she succeeds in getting her daughter nearly out of the room, when lo! the band stikes up the "Brighton Pavilion," or some other attractive galop, and with an "Oh! I must have this one dance," the sweet girl, with her partner rushes back in the ballroom. And thus it goes on, until the attentive philosopher is possitively sickened at what he sees of this phase of the fair sex, and more than ever resolved to exercise the greatest care and discrimination before intrusting his happiness to a woman—so desirable an example of whom he has just had the opportunity of studying. Surely the system must be wrong which permits, or is the cause of, so lamentable an exhibition of the female character, an instance of which can be seen in any ballroom in London. At a public ball it is really quite painful, at an advanced hour of the night, to look round the room and see the array of wearied old women. They have exhausted their supply of small talk and scandal, and now sit patiently waiting for the blessed time when their daughters will be pleased to go home. Why should they be here? They are only a soure of inconvenience and annoyance to their charges; serve no purpose whatever, and would be far better at home. The fathers don't come. Trust them. Why, then, should the mothers?—*London Review.*

Drought and Grasshoppers.

The Cleveland *Herald* says: "The ravages of the drought and grasshoppers in certain sections of the Reserve can no longer be questioned. In the Eastern part of this county, through Solon, Mayfield, &c., what the dry weather left of the meadows and pastures, has been eaten by the grasshoppers, and now these little beasts are turning their attention to the cornfields. The same is true of portions of Geauga county, as we are told by Burton farmers, where the dairy interests are suffering severely by the twofold calamity of drought and grasshoppers. The farmers contemplate selling a good portion of their stock, not seeing it for their interest to carry it through the coming winter. In Solon and around there the farmers are cutting up their corn, the stalks not earing out properly, and the grasshoppers seizing what "nubbins" there are. The potatoes, too, are small, very small, and few in the hill, and altogether from the dairy section of Cuyahoga and Geauga advices are gloomy."

THE instruction of Idiots has been brought to a high state of perfection at the Earlswood (Eng.) Asylum. At this establishment the inmates are to be found at work at various trades; household and laundry work, mat-weaving, farming, gardening, carpentering, tailoring, shoemaking, plumbing and basket making are all carried on by idiots. The trade of a carpenter is a favorite, and that of a boot and shoe-maker comes next. Of the 154 boys now in the asylum, 70 can speak fairly, 40 can speak indistinctly, 27 can speak a few sounds only, and 17 cannot speak at all. Out of the same number 27 can read, 15 can read by spelling the words; 26 know nearly all the letters; 40 know a few letters, and 46 no letters at all. Twenty-six only can write sentences; 22 can write easy words; 28 can make a few letters; 55 can make strokes and the letter O, and 23 either scribble or make no attempt. One of the inmates has a special ability as a copyist of the finest engravings, and his imitations of Landseer and other well known artists are hung upon the walls of the asylum.

THE poor Israelites of Wilna, Prussia, and distressed families in general of that district, have experienced a sad loss in the death of the Hebrew merchont, Judel Apatow, of that city. Three hundred poor families were supplied by him with bread daily at half price. His funeral was attended by twenty thousand people.

A Talk with Mr. Stevens.

A correspondent of the New York *Tribune*, who had a talk with the late Hon. Thaddeus Stevens a short time before his death, gives the following as a portion of his conversation:

"The greatest gratification of my life resulted from my ability to give my mother a farm of two hundred and fifty acres, and a dairy of fourteen cows, and an occasional bright gold piece, which she loved to deposit in the contribution box of the Baptist Church which she attended. My mother was a very extraordinary woman, and I have met very few women like her. My father was not a well-to-do man, and the support and education of the family depended on my mother. She worked night and day to educate me. I was feeble and lame in my youth, and as I couldn't work on the farm she concluded to give me an education. I tried to repay her afterward, but the debt of a child to his mother, you know, is one of the debts we can never pay. Poor woman, the very thing I did to gratify her most hastened her death. She was very fond of her dairy and fond of her cows, and one night going out to look after them she fell and injured herself so that she died soon after." I had heard the fact mentioned that Mr. Stevens had on one occasion given $100,000 to the poor of Lancaster county. "It is not true," he said. "I have never been able to do any such thing. I have been a failure in everything. I have failed financially three times. The first was through going bail and security, and it broke up a very fine practice I had in Adams county. The second was through the carelessness of a partner in some iron mills. Notes were presented to me for payment which I had never executed or known of. I went to my partner and asked how it was. He explained that he had been losing money for some time, but as he had induced me to embark in the enterprise he had not the courage to tell me of the losses, and had signed the firm name to notes without consulting me. 'Well,' I said, 'what's to be done?' He began to make a piteous mouth, but I cut him short. 'I don't come to upbraid you,' I said; 'I come to get at the facts.' I looked over the books and saw that we were deeply involved. Then I said to him, 'You take the works and pay all claims, releasing me entirely.' He declined, and I at once said, 'Then I will,' and it was thus the iron works near Chambersburg came into my possession. The third time I failed was when the rebels burned these works. My friends in Lancaster and elsewhere raised about $100,000, which they tendered to me, but I declined it, and it went to the poor fund, but I did not give it. I managed to get through my trouble, and have never taken advantage of a bankrupt law yet."

THE editor of the Paris *Magazine*, a very able, but not very prosperous Paris weekly, applied recently to Henri de Rochefort, ediror of *La Lanterne*, the most successful French journalist of the day, for advice as to the steps they should take in order to make their paper financially successful. He told them to shun, above all things, long articles, and never to publish any thing containing more than one hundred and fifty lines. "Formerly," he says, "people west home with a magazine, put on their dressing gown and slippers and read until dinner time, But now they keep their boots on and read in walking. ublish plenty of small items, *entrepilets*, separated by considerable spaces. The public does not thank you for giving it more 'copy' than it demands. Our readers, it is true, like good editorials, but most of them, as soon as they open their journals, look in the local columns in order, to see if Mademoiselle Marie Roze has found her little dog again.

THE APPROACHING ELECTIONS in England, according to an intelligent observer in that country, will result as follows: First, the Liberals will have a very decided majority in the new Parliament; secondly, these Liberals will be pledged to support Mr. Gladstone in a very different manner from that in which they supported him last session; thirdly, the majority of the House will be united on behalf of a clear and definite programme, and will be compelled to adhere together so long as the question of the Irish Church remains undecided; and lastly, the House will be composed of men whose politics, whether ministerial or opposition, will eventually be tinged with practical conservatism inherent in the possession of wealth and station. These conditions are not uniformly favorable to the Liberal cause. Still they are vastly more so than have been known of late years.

THE COPPER PRODUCE.—The estimated consumption of copper in the United States is from twenty-five to thirty million pounds annually. From 1858 to 1867, inclusive, the Lake Superior mines have produced 88,488 3-10 tons of copper. The Lake Superior mines produced about one-half of the annual consumption of copper in the United States; while California, Maryland, Vermont, North Carolina, Virginia and Tennessee produced the other half of what is consumed annually. The imports from Canada, Cuba, Chili, &c., are counterbalanced by the exports of domestic copper.

SECURITY AND COMFORT FOR THE TRAVELING COMMUNITY.

J. B. HARRIS' SAFETY FIRE JACKET,

Car Heater and Moderator,

For SMOKE AND HOT AIR FLUES, dispensing with the use of Stoves and Fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached.

Having obtained of the United States Letters Patent for a Safety Jacket which is warranted to resist the most intense heat that may be adplied to it in the position and purpose for which it is intended. It is a sure protection from accidents by fire, originating from defective flues, or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, facteries, ships, steamboats, railroad cars, &c., wherever pipes as conductors are made dangerous by being overheated and security desired. I will sell, on application, rights to manufacture or to use the above invention; also, territorial rights, to such as may wish to engage in selling privileges, either by State or county.

Daily Prayer Meeting—From 12 M. to 12:30 o'clock at the Rooms of the Christian Association, No. 23 Fifth street.

Franklin, Pa.—Thomas M. Marshall, Esq., and Hon. S. A. Purviance will address a Republican mass meeting at Franklin, Venango county, on Monday evening, 24th inst.

Attention.—We call the attention of our East Birmingham friends to their meeting advertised in to-day's paper. Let there be a full turn out of all the friends of Grant and Colfax.

The Republicans of East Birmingham have erected a substantial and neat speakers' stand for the campaign on the vacant lot at the corner of Railroad and Carson street. The gas pipe was being put in yesterday.

Committed for Court.—William White, charged on oath of Thomas Chester, before the Mayor, with larceny, had a hearing yesterday, after which he was committed to jail in default of bail for his appearance at court.

Receiving Stolen Gooods.—Mathew Donovan made information before the Mayor, yesterday, charging Owen Sullivan with receiving stolen goods. The accused lives on Penn street. A warrant was issued for his arrest.

Burglary.—The feed store of Mr. Steel, on Ohio Street, Allegheny, was entered by burglars, at a late hour Tuesday night, who gained access through the cellar. Twelve dollars in money and a vest were carried away.

Surety of the Peace.—George Barker made information before the Mayor, yesterday, against Henry Artcutter for surety of the peace. The parties reside near Negley's Run. A warrant was issued for the arrest of Artcutter.

Assault and Battery.—Charles Stafford made information before Alderman Neillie of Allegheny yesterday, charging Charles Blanton with assault and battery. The accused was arrested, and in default of bail for his appearance was committed to jail for a hearing.

Disorderly Conduct.—Jno. Schlugel made information before Justice Heisel, of East Birmingham, yesterday, charging Catharine Schubert with disorderly conduct. The disorderly woman was arrested, and taken to the office of the Justice who discharged her on payment of the costs.

In Durance.—Rachel Briggs, whose name has appeared in the police reports rather frequent of late, was arrested yesterday on a charge of larceny by bailee on oath of Louisa Rorenburg, before Alderman Thomas. She was committed to jail in default of bail for her appearance at court.

Cross Suits.—A difficulty occurred at the horse market yesterday between two Germans, John Speiler and Henry Hanna, in relation to the sale of a horse and wagon, which terminated in a fight and cross suits for assault and battery. The parties were held to bail for their appearance at Court.

Beat His Wife.—Mary Cunningham made information before Alderman Thomas yesterday, charging her husband, Alexander Cunningham, with assault and battery. She alleges that he comes home drunk "o' nights" and beats and abuses her. He was arrested and committed to jail in default of bail for his appearance at Court.

Off the Track.—Yesterday evening a freight train on the Pennsylvania railroad was thrown from the track near Derry station. Owing to the low rate of speed at which it was moving, but little damage was done. The Cincinnati Express and Johnstown Accommodation train were delayed several hours in consequence of the accident.

Not Up to Time.—John B. Eaton made information before the Mayor yesterday, charging John Rylan with larceny by bailee. He alleges that he left with Rylan a gold watch of the value of $325, which was disposed of by raffle, and that Rylan has failed to "come to time," with either watch or money. A warrant was issued for his arrest.

A Wife Beater.—Barbara Zang made information before Justice Hiesel, yesterday, charging her husband, Godfrey Zang, with assault and battery. She alleged that he knocked her down, pulled her hair and bit her, and threatened to kill her if she did not leave the premises. Godfrey was arrested and after a hearing was held to bail for his appearance at Court.

Fingers Amputated.—Saturday evening a boy named Monahan, residing on Tunnel street, a carter by occupation, while dumping a load of stone out of his cart, had the fingers of his right hand caught between the bed and the shaft, and so severely crushed as to render amputation necessary. Dr. Gallaher was called upon and amputated the first and second fingers. The boy is doing well.

Larceny of Meat.—Mr. W. A. Pain, of Jefferson township, made information before the Mayor yesterday, charging John Giles *alias* Collins with larceny. The prosecutor alleges that the accused entered his store house and took therefrom six hams valued at $15, one shoulder valued at $3, and one hundred pounds of flour of the value of $6. A warrant was issued for the arrest of Giles.

Would Not Pay.—Charles Ford made information before Alderman Strain, yesterday, against William Henderson for surety of the peace. He alleges that Henderson occupies one of his houses as tenant, and that he called on him yesterday for rent, which Henderson refused to pay and threatened to shoot him if he did not leave the premises: Henderson was arrested and held for a hearing.

Abusing a Horse.—David Hann, a livery stable keeper, in Birmingham, made information before Justice Ammon, yesterday, charging James Bryer with misdemeanor, under the livery stable act. He alleges that the accused hired a horse and buggy from him and that by careless and malicious driving the horse was abused and the buggy damaged seriously. A warrant was issued for his arrest.

A Dear Ride.—James Henderson, a boy about fifteen years of age, who was "stealing" a ride on the fast line, which arrived in this city yesterday morning from the East, fell off the cars near Greensburg and one of the wheels passed over his right arm, severing it from the body, near the shoulder. He was removed to a house near by and received the proper surgical attendance. It is thought he will recover.

Robbery in East Liberty.—Saturday night last the house of J. F. Brain, of East Liberty, was entered and two coats stolen, one a light overcoat valued at seventeen dollars and a sack-coat of the value of twenty dollars. The matter is in the hands of the police who are trying to work up the case. It is also stated that a fine gold watch was stolen from Mrs. Munson, wife of the telegraph operator at that place. No clue to the thief.

Assault.—Edward McNalley made information before Alderman Thomas, yesterday, charging Mrs. Owens, Bridget Owens and Mrs. Phelans with assault. It appears that the deponent was in the act of removing his household goods from his premises, a proceeding his wife was opposed to, and the defendants, who are neighbors, endeavored to drive him from the premises by throwing stones at him. A warrant was issued.

The Race for the Championship—Brown and Coulter Matched for $2,000 and the Championship — Upper Mononongahela Course, September 9th.

We learn from the New York *Clipper*, of this week, that Brown and Coulter, through their friends, have at last come to terms, and are now matched to row a five mile race over the Upper Monongahela course, September 9th, for a purse of two thousand dollars and the championship of America.

In speaking of the race, the *Clipper* says:

After a deal of useless beating about the bush, during which each party exhausted all their power of persuasion and argument in the endeavor to bring the opposite side to an understanding of the matter similar to themselves, the two claimants for the highest aquatic honors of the country, Henry Coulter and Walter Brown, have, at last, come to terms, and in the person of their representatives have affixed their signatures to articles, by the stipulations of which they bind themselves to row a five mile race for one thousand dollars a side and the championship of America, on the upper Monongahela Course, a couple of miles above Pittsburgh, Pa., being the same over which the final race between Ward and Hamill was pulled, as also that between Coulter and Mekiel. The following is a copy of the articles signed at the *Clipper* office on Monday, August 17th:

ARTICLE OF AGREEMENT entered into between Henry Coulter, of Pittsburgh, Pa., and Walter Brown, of Portland, Me., to row a race of five miles (two and a half miles and return), for the sum of one thousand dollars a side, and the undisputed title of champion sculler of America.

The race to take plce on the 9th of September, 1868, between the hours of five and six o'clock P. M., on the Monongahela river, above the dam, the party going from home to select the course at least two days prior to the race. The first deposit of $200 a side shall be placed in the hands of Frank Queen on the 17th of August, 1868; the second deposit, $300 a side, shall be in the stakeholder's hands on the 25th of August, 1868, at 11 o'clock, A. M.; and the third and final deposit of $500 a side shall be made good on the 5th of September, when the sum of $250 shall be paid for expenses to the party going from home.

RULES GOVERNING THE RACE.

1st. The referee shall be chosen at the making of the last deposit, and he shall be bound by these articles in rendering his decision.

2d. The race must be rowed on a *fair day* and in *smooth water*, and if the day chosen be unfair, the referee *shall* postpone the race to the first fair day thereafter that will suit both contestants.

3d. The boats must collide in order to make a foul, which shall be considered unfair, and the referee shall order the race rowed over and over again until pulled to a fair and satisfactory conclusion. The course to be properly surveyed and the expense to be shared alike. As an act of courtesy, Mr. Coulter will attend to placing the stake boats in their proper positions (each man to turn his own stake boat) at least two days before the race—stakes or buoys shall be used in absence of boats to mark the course.

4th. If the party going from home be interfered with by outside boats, or parties on the course during the race, the referee shall order the race to be rowed over again within twenty-four hours from such interference, and not until twelve hours have elapsed.

5th. Both men shall be in their boats and at the starting point between the hours of five and six o'clock, and either party failing to appear at such time shall forfeit all claim to the stake money. The money not to be given up until won or lost by a fair and square race.

Great Walking Match.

There is now going on in the rear of the Cottage Saloon, on Fifth street, a great walking match, which is attracting much attention here as well as elsewhere. It is a match for a purse of $1,000, the parties to walk for one hundred or more consecutive hours, without sleep or rest, other than one hour allowed in each of the twenty-four. The first person sinking from exhaustion is to be declared the loser. Last night we paid a visit to the yard and found both contestants fresh and vigorous, although they had passed the 29th hour of their task. James Miles, the Australian and California champion, who is justly regarded as the greatest living pedestrian, was the challenging party. He is a man of medium height, weighing one hundred and thirty pounds neat, and is capable, like all men of like build and weight, of enduring any quantity of hardships. He is an Englishman by birth and has won thirty-nine similar wagers out of forty contests. His competitor, "Ike Keefer," is a native of Birmingham, of comparatively light build and weighs one hundred and thirty-four pounds. He was fresh and lively when we saw him, and talked confidently of winnng the battle. This, we believe, is his first advent as a pedes rian in the sporting ring. He walks on a plank thirty-two feet long and sixteen inches wide. This course is slightly elevated in the center. Miles walks on a dead level of the same dimensions. Ten minutes are devoted in each of the six hours in rubbing the feet and calves of the walkers with rum and whisky, an operation which greatly revives them. There are upwards of $5,000 up on the contest, and thousands of persons visited the yard yesterday. A close watch is kept upon the pedestrians, lest they may fall asleep in the long hours of the night. It is a fearful trial of human endurance, and all we have to say is that may the best man win.

Ike Brickell, a well known pedestrian, has put forth a challenge to the winning man in this contest, to walk him on the same terms, which will doubtless be accepted.

Alleged Mail Robber Arrested.

Thomas G. Shallcross, United States Mail Route Agent, made information before U. S. Commissioner Gamble, Tuesday morning, charging Wm. H. Wilson, of Monongahela city, Washington county, with robbing the mail. It appears that during the month of May and a part of June last, a number of registered letters which had been sent through the mail between this city and Brownsville, failed to reach their destination, and as complaints reached the office here, information was given to Shallcross, who proceeded at once to investigate the matter. He has been engaged for some time on the case and succeeded in gaining such information, in his opinion, as to justify him in preferring a charge of robbing the mail against Wilson, who was formerly second clerk of the steamboat Elisha Bennett, one of the mail boats between this city and Brownsville. A warrant for the accused was issued, and placed in the hands of officer Robert McCready of the Mayor's police, who proceeded at once to Monongahela City and promptly arrested him, arriving home with the prisoner in charge Tuesday night. The accused gave bail in the sum of two thousand dollars for a hearing before United States Commissioner Gamble this morning at ten o'clock. The character of the evidence which may be produced against Wilson has not transpired. It is said, however, that most of the letters have been traced to his possession, the charge of the mail having been assigned to him by Captain Speer, the regular mail agent on the boat. The information which has been made charges that the letters were abstracted from the mails at various times between the 1st of May and the middle of June, but the number stolen, or the amount of money, or other valuables which they may have contained, have not been ascertained. The accused is a middle-aged man, and has heretofore borne a fair reputation.

Twenty-Third Congressional District.

The Conferees of the above Congressional District met at the Exchange Hotel, Freeport, and after meeting from day to day and balloting two hundred and eleven times, on the two hundred and twelfth ballot the names of Hon. Thos. Williams and E. McJunkin, Esq., were withdrawn and Darwin Philps Esq., of Kittanning, Armstrong Co., was unanimously nominated as the Republican candidate for Congress of the 23d Congressional District.

Below we publish the letter of Hon. Thos. Williams placed in the hands of his conferees on the morning sf the 17th inst., and on the authority of which his name wsa withdrawn from the Conference, which noble letter speaks for itself.

H. S. FLEMING, Secretary.
Freeport August 19th, 1868.

ALLEGHENY CITY, Aug. 17, 1868.

Hugh S. Fleming and S. H. Geyer, Esqs., Conferees, &c.

GENTLEMEN: You are aware that in a card published by me before the meeting of the late Congressional Convention here, it was announced to the people that, while I did not ask for a re-election, and could not enter upon a contest for it, I should not feel at liberty to decline it, if it was their desire to retain me in their service for another term.

It was the pleasure of the Republican party in this, its stronghold, comprising at least one-half of the District, and giving nearly the whole of its great majority, to do me the signal honor of a spontaneous and unanimous endorsement in presenting me anew for the suffrages of the party; and although absolutely declining a canvass in the other counties in the face of an assurance that it would be anything but hopeless, at least in one of them, I was almost equally honored there by an unsolicited and unexpected vote.

In the full knowledge of these facts, and without any interference on my own part, you have endeavored to carry out the instructions of those who appointed you, and what were so confidently believed by you to be the wishes of a large majority of the whole Republican party of the District, as to have prompted the repeated offer to submit the question to the test of a popular vote, which has been as often declined, as I am informed, upon the argument that it was a question not of majorities, but of local organizations only, while each of the two smaller counties has adhered persistently to its own candidate, and both are confessedly determined that this county shall be excluded entirely.

It is apparent, therefore, that there can be no agreement, and I find myself accordingly very unexpectedly involved in a contest, which promises no end, except in a rupture which nothing but your patriotism and the self-abnegation of your own people can prevent, I do not feel as if I ought to protract, if you are inclined to bring it to a close, by any unreasonable tenacity that might savor of self, and imply an overanxious desire on my part to continue in a position which might have flattered the ambition of a younger and more vigorous man, but has nothing in it to make it an object of consuming passion to one who knows how to value and profit by repose. The pendency of an election so important as that which is now approaching, and the absolute necessity of sustaining our President if elected—as there is no doubt he will be—or over-ruling the wicked and revolutionary designs of the Rebel party, if he should be defeated now by the captives who were so lately obliged to take a parole at his own hands, by a majority in Congress sufficiently large to control the government in the interests of peace and order, and Republican liberty, are considerations much more important to the nation than any which can enter into the question of the political fortunes of so humble an individual as myself. I cannot consent, therefore, to be regarded as an obstacle in the way of a settlement in case you can secure a candidate whose opinions are in harmony with the earnest Radicalism which has never hesitated between a Congress and a usurping President, and has made of this County, both before and during the war, the Gibraltar of the State and Nation.

I desire you, therefore, to waive all offense, and yield to the spirit of peace and harmony what you might otherwise insist upon, by withdrawing my name, rather than take the risk of a disturbing contest, whenever you are satisfied that a nomination is impossible on any other terms, and that you can do so without unduly compromising the rights or interests of the people you represent.

Very respectfully, your ob't serv't,
THOS. WILLIAMS.

Serious Accident.

Yesterday morning about eight o'clock, a serious accident occurred on Pennsylvania avenue, near Miltenberger street, in the Sixth ward, which may result fatally to James Neeld, a little boy four years of age, son of Daniel J. Neeld, residing on Beech alley. The boy was crossing the street at the point named, when Mr. E. Reysmeyer, a grocer at Soho, came driving up the avenue in a spring wagon and run over him, inflicting serious internal injuries, and inflicting severe cuts and bruises on his body, face and limbs. The boy was picked up insensible and carried into a house near by, where his injuries were attended to by Dr. J. W. Batton.

The father of the boy, Mr. Daniel J. Neeld, yesterday, made information before Alderman Strain charging Reysmeyer with aggravated assault and battery. He was arrested and held for a hearing.

County Executive Committee Meeting.

A meeting of the County Republican Executive Committee was held in the Common Council Chamber City Building yesterday, at 2 o'clock, P. M. the Chairman, Russell Errett presiding and J. H. Stewart, officiating as Secretary.

The meeting was well attended, every district in the county being represented, and the members of the Committee all give favorable reports from their several districts.

A communication from Wm. A. Short, Secretary of the Sailors and Soldiers National Executive Committee in regard to holding a National Convention in this city, was read by the Secretary.

The communication was received and on motion referred to a Committee consisting of Col. Russell Errett, Capt. W. B. Cook, J. H. Baldwin, Col. Alex. Hilands, Maj. E. A. Montooth, Jno. A. Myler, Col. J. W. Ballantine and John G. Brown, to take the matter into consideration.

The Committee appointed to consult with the German Reception Committee in regard to the reception of Gen. Carl Schurz reported that all the necessary arrangements had been completed for a grand reception, torch light procession, &c., Monday evening.

R. P. Nevin, Esq., submitted the following resolution, which was unanimously adopted:

Resolved, That while this Committee regret the defeat of the Hon. Thomas Williams, we cordially endorse the action of the Congressional Conferees of the 23d district in the nomination of the Hon. Darwin Phelps, of Armstrong county, and pledge ourselves to use all honest endeavors to secure his triumphant election.

The Committee on Organization were requested to meet at the Committee Rooms at 2 o'clock P. M., Friday.

The meeting then adjourned.

Arrest of a Supposod Horse Thief.

Yesterday morning the Mayor received a dispatch from Mr. Jonathan West, of Fallowfield, Washington county, stating that two valuable horses had been stolen from him the night previous, and giving a description of the horses. The Mayor gave the matter into the hands of officers Moon and Irwin, and directed them to work up the case. During the afternoon Mr. Henry Ludolf, who resides in the vicinity of East Liberty, came to the Mayor's office and made information against Edmund Kaylor, charging him with the larceny of a coat valued at $30 and a shirt worth $3. A warrant was issued and placed in the hands of an officer, who inquired where the man would most probably be. Mr. Ludolf replied that he would most likely find him at Squirrel Hill, as he had two horses in pasture there. The officer hearing this made further inquiry and found that one of the horses answered the description of one of Mr. West's horses, and they immediately started for the "pasture field." On arriving there they found the horse to be one of the stolen ones, and observed two men who were standing some distance off leave the premises in a hurry. Officer Irwin started in pursuit and captured Kaylor, and brought him and the horse to the city. Kaylor was locked up and the officers returned again last night to try and capture the other man.

Crusade Against Whisky Sellers.

A crusade was made against a number of whisky dealers yesterday by David Force. He made information before Alderman Neillie, charging W. Buhler, Third ward, Louis A. Kaufman, Ninth ward and A. & J. Kester, of the Fifth ward, with selling liquor on Sunday. The accused were arrested and held to bail for a hearing.

There is considerable complaint on the part of whisky dealers, and their friends, as to the motive of those who inform against them. They allege that it is not done through any desire to benefit the community but for private gain. How far this is true we do not pretend to say, as there are doubtless some cases of that character. It must be acknowledged, however, by the parties complaining, that had they obeyed the law there would be no ground for complaint, and no matter what the object of the prosecutor may be, if they violate the law they are amenable. It does not follow that any prosecutor in a whisky case is instigated by personal motives because the law offers inducements to informants.

Meeting of the City Executive Committee.

The Republican City Executive Committee held a final meeting last night for the purpose of settling its business before the Committee was dissolved. The Chairman, Ald. Joseph A. Butler, presided and Capt. W. B. Cook officiated as Secretary.

On motion of Capt. Cook, the Chairman, regular Secretary and Treasurer of the Committee, were appointed an Auditing Committee to make a final settlement of the business.

The Committee then adjourned.

—We are pleased to see that many members of the old Committee have been re-appointed, as it has been one of the best and most effective Executive Committes the Republicans of the city have had for a number of years, and their experience will be of great advantage to the new Committee.

Found Drowned.

Tuesday evening Robert Houston, a young man, who for the past two weeks has been boarding at the Exchange Hotel, on Irwin street, and previous to that time had been working in Oil City at coopering, left the hotel, taking with him his carpetbag, and started towards the St. Clair street bridge. Nothing more was seen of him until yesterday morning, when a woman employed to clean some offices on St. Clair street discovered his body in the Allegheny river, near the shore, a little below the suspension bridge. She immediately made her discovery known, and the body was secured and Coroner Clawson notified. An inquest was held and the jury returned a verdict of "found drowned."

Probably Fatal Accident.

Yesterday morning about seven o'clock, John Sullivan, a boy about seventeen years of age, met with a very serious, if not fatal accident, near the corner of High and Wylie streets. He was driving a loaded sand cart along the street, and at the place mentioned was seen to reel in his seat, as if taken with a fit, and fall forward to the ground. He fell immediately in front of the wheel, which passed over his body, producing serious injuries. He was taken up in an insensible condition and conveyed into a neighboring building. His injuries were very severe and may prove fatal.

"Rough and Tumble,"—Two teamsters belonging to the south side got into a difficulty yesterday about which was entitled to the "right of way," and finally endeavored to settle the affair by a rough and tumble fight. The parties were M. Henry and Dr. Moses Madison, a colored man. Henry it is alleged, struck his opponent on the head with a brick five times, inflicting several severe cuts. While being pounded with a brick, Madison was endeavoring to knock the wind out of Henry with his fist. Cross suits for felonious assult and battery against Henry and assault and battery against Madison were made before Justice Heisel who held both parties to bail for their appearance at Court.

Incendiary Fire.—About eleven o'clock Tuesday night smoke was discovered issuing from the cellar of a house on Bellefontaine street, Seventeenth ward. The doors were broken open and on examination a quantity of rope saturated with oil was found between the weather-boards and plastering of the house. The rope had been burning for some time, but owing to the fact that the cellar doors were closed, and there being no draft, it was burning very slowly. It had evidently been placed there by an incendiary.

The Press of Pittsburgh.

The *Evening Mail* is publishing a series of articles from the free-flowing and graceful pen of B. T. Campbell, Esq., on the daily press of Pittsburgh. The complimentary article on the GAZETTE, which appeared a few days ago, was followed yesterday by a very interesting sketch of the *Dispatch*. The writer says:

In April last, the founder and senior proprietor, J. Heron Foster, died of a lingering illness. He was a clear thinker, devoutly attached to principle, a good, though not a great writer, a brave soldier, a firm friend and conscientious Christian gentleman. Bred a Whig, he threw all the influence of his paper into the Free Soil movement, and on the inception of the Republican party immediately espoused its doctrines and remained true to it during life. While a member of the State Legislature he gained the reputation of honesty and capability. At the breaking out of the late war he left the pencil and scissors and was chosen Captain of a company in the "Old Thirteenth," with which organization he participated in two campaigns. He was subsequently appointed Provost Marshal of this district. When he departed this life his death was as sincerely regretted as his active life had been appreciated.

Daniel O'Neill is, in every sense of the term, a self-made man, and should be proud of the brilliant success that has attended his well directed efforts. As a reporter he was indefatigable, and as a proprietor he is not less so. There are few here who understand more about newspapers than he, and none who put their knowledge to such practical use. From a salary of four doliars a week he now divides nearly $40,000 annually.

Alex. Rook, like O'Neil, was a hard working man, and for years was foreman of the *Chronicle* composing room. Out of an iron prospect he has devolved a golden fortune, and still keeps his hand to the plowshare. The local department, which is quite a feature, has three contributors—Daniel O'Neill, Eugene O'Neill and Frank P. Case. The younger O'Neill has considerable versatility, a ready, dashing style, and is a master of that great reportorial accomplishment, phonography. Mr. Case is industrious and enterprising, and withal a good newspaper man. He commenced his literary career on the *Dispatch* over two years ago.

Another Improvement in Steam Engines—A Revolution in Progress—Centrifugal Engine.

A new invention has been introduced into the mechanical world, which promises to work an entire revolution in the application of steam to the various purposes of life. People had supposed that about the last improvement that could be made in steam engines had been made, but this new invention proves that people in supposing this were mistaken. A machine has been introduced which does away with cylinder principle altogether, as well as with the piston, crank, steam chest, excentrics, &c. The engine which makes all these changes is the Centrifugal Steam Engine, and is the invention of Benjamin Franklin, of Westmoreland county. Already it has taken high rank among the recent inventions of the day, and it is morally certain to overcome all obstacles and win its way to a foremost position. The most competent practical engineers have examined it, and pronounce its success certain. They confidently predict that it will supersede all other kinds.

The facts which recommend it are many. As we have said, it does away entirely with the cylinder principle, depending on centrifugal force. Thus the mechanism is greatly simplified, and the engine is much more easily understood and much more economically worked than the old kind. In the new engine friction is almost entirely overcome. It will produce fifteen hundred revolutions to the minute, with one-fourth of the steam required to produce the same number of revolutions in the old style, and with the same amount of horse power. The Centrifugal Steam Engine condenses almost all of its steam, which, it is needless to say, is, in itself, a great saving. Another prime recommendation of the new engine is the fact that its great simplicity of construction makes it much more economical than any other. It can be constructed for not more than one-fourth of the expense required for the old style, and when made, it is almost impossible for it to get out of order. So simple is it that a child can run it. The engine is now on exhibition at the Atlas works, in the Ninth ward, and all should see it.

Caution!!!

The community at large are hereby notified that large quantities of sewing machines, purporting to be of the "Weed" manufacture, have been recently imported into this country and are being offered for sale in many places.

This latest production, which is everywhere so justly admired for its beauty and mechanical perfection over all its many worthy competitors, and which has indeared itself, by its intrinsic merits, to thousands of households in such an almost incredibly short space of time, is now compelled to defend itself, not only against misrepresentation, but *imitation* and *fraud*. It is being extensively counterfeited both in this country and in Europe. Over *seven hundred* of these *bogus unlicensed* articles have been recently offered for sale at one time in New York City. Parties purchasing will see to it that they are not imposed upon, and may always be supplied with the *genuine* "Weed" Machine, duly licensed, by calling on Mr. R. H. Long, at the agency, 112 Grant street.

Rejoice, Ye Afflicted.

Nothing has been discovered in Europe which has contributed so much to the relief of diseased humanity as that wonderful tonic and stimulant known as Daubitz's Herb Liquor. It has gained high reputation everywhere throughout the old Continent, as its marvelous curative abilities in all hemorhoidal and stomach complaints have been attested by thousands on thousands of persons, amongst whom the most eminent of Europe's physicians. This great liquor will hereafter be imported in Pittsburgh for American consumption by the well known firm of Dr. Falk & Co., 768 Penn street, of which Mr. Emil Ackermann, 209 Penn street, is a member, and Mr. Alexander Kock traveling agent. This liquor cures almost all the diseases to which flesh is heir, and should have large sale. None will regret giving it a fair trial.

Most Bitters of the present day that are loudly puffed through the newspapers as having great curative properties are vile compounds and base impositions, containing no medicinal virtues whatever, and are really very poor whisky beverages, and, instead of acting as a stimulant and tonic, have a tendency to weaken the stomach by entirely destroying the coating. The public should therefore be very cautious and purchase none but *Roback's Stomach Bitters*, which have stood the test as a remedial agent for many years, and are really as their name indicates, a *stomach bitters* and *not a beverage*. They combine the properties of the best tonic and a stimulant—a laxative, an efficient and anti-bilious agent and the best stomachic known to the world, and when taken in conjunction with *Roback's Blood Pills*, are the safest and surest preventive against all bilious derangements, thoroughly regulating the whole system and giving tone to the digestive organs.

They are highly recommended as an invigorating tonic to mothers while nursing, increasing the flow of milk, and for convalescents, to restore the prostration which always follows long-continued sickness, they are unsurpassed. No household should consider themselves safe from the ordinary maladies without these invaluable medicines. They can be obtained of any druggist. TTSF

SEVENTY-NINE YEARS OF AGE.

A Gentleman of Seventy-nine Years of Age Entirely Cured of a Troublesome Cough and Throat Disease After Lingering for Forty Years.

For forty years I suffered with a disease of the throat and chest, accompanied by a severe, troublesome cough, day and night. Having tried nearly everything that I could hear tellof, and having exhausted the skill of a number of physicians of high repute and ability, I was at last induced to apply to Dr. Aborn, having frequently heard of his high reputation. I placed myself under Dr. Aborn's treatment on the second of May last, and it is with a feeling of deep gratitude that I testify to my entire recovery. Indeed, the Doctor's treatment relieved me before I left his office the first time, the cough then ceased and has not since returned. JNO. H. CUMMINGS.

GENUINE
GLYCERINE TOILET SOAP,
MANUFACTURED BY
PETER SQUIRE, 277 Oxford street London.

This Soap has been, by a peculiar process, freed from the excess of alkali almost invariably found even in the purest Soaps, and at the same time it is made to take up a large quantity of Glycerine (40 per cent.). It is to this latter substance that it chiefly owes its soothing quality—softening the skin, preserving the complexion, preventing chapping and the unpleasant roughness experienced in cold weather. It is found most useful in alloviating the irritation produced by dryness of the skin. On account of its great purity it recommends itself to all persons that suffer from the use of common Soaps; for delicate skins it is the only Soap that can be tolerated. It is particularly useful for cleansing diseased skins, where the irritation produced by ordinary Soaps causes so much inconvenience. It is the most agreeable Shaving Soap that can be used, leaving the skin soft and comfortable. The Soaps usually sold as Glycerine Soaps contain little or no Glycerine. It is only necessary to apply the tongue to the surface and the genuine will be distinguished by the sweet taste. Agent,

☞**THE APPETITE FOR**

Tobacco Destroyed!

Leave off Chewing and Smoking the Poisonous Weed, Tobacco.

One box of ORTON'S PREPARATION IS WARRANTED to destroy the appetite for tobacco in any person, no matter how strong the habit may be, ☞ IF IT FAILS IN ANY CASE THE MONEY WILL BE REFUNDED. It is almost impossible to break off from the use of tobacco by the mere exercise of the will. Something is needed to assist nature in overcoming a habit so firmly rooted; with the help of the preparation there is not the least trouble. Hundreds have used it who are willing to bear witness to the fact that ORTON'S PREPARATION completely destroys the appetite for tobacco and leaves the person as free from any desire for it as before he commenced its use. It is perfectly safe and harmless in all cases. The Preparation acts directly upon the same glands and secretions affected by tobocco, and through these upon the blood, thoroughly cleansing the poison of tobacco from the system, and thus allaying the unnatural cravings of tobacco.

NO MORE HANKERING FOR TOBACCO AFTER USING ORTON'S PREPARATION! RECOLLECT IT IS WARRANTED. BEWARE OF COUNTERFEITS!

RECOMMENDATIONS.

The following are a few selected from the multitude of recommendations in our possession:

[From W. P. Heald, Esq., Bangor, Me.]

BANGOR, Me., April **24**, **1868**.

I hereby certify that I have used tobacco for thirty years past, and for the last fifteen years I have used two pounds per month. I have made attempts to leave off at different times. I have left off one year at a time, but always continued to hanker for it until I used Orton's Preparation, which has completely cured me of the appetite for tobacco. I would recommend all who are affected with this terrible habit to try the preparation, which will certainly cure it if the directions are followed.

W. P. HEALD.

[From E. W. Adkins, Knoxville, Tenn.]

KNOXVILLE, Tenn., August **5**, **1867**.

This is to certify that I had used tobacco to such an extent that my health had become greatly impaired, and my whole system deranged and broken down, in June, **1867**. I purchased one box of Orton's Preparation, and after using it I found that I was completely cured. I have not had any hankering or desire for tobacco since using the preparation. I believe it to be all that it is recommended, and I would advise all who wish to quit the use of tobacco to try one box of Orton's Preparation.

E. W. ADKINS.

[From John Morrill, Bangor, Me.

BANGOR, Me., March **24**, **1868**.

This is to certify that I have used tobacco for eighteen years; have tried many times to leave off, but have suffered so much from a dizziness in my head, and gnawing at my stomach, that I have soon given up the trial. A short time since a friend induced me to try Orton's Preparation (sold by you.) I have done so, and am completely cured. I did not in the least hanker after tobacco, either to smoke or chew, after I began to use the Preparation.

JOHN MORRILL.

FINANCE AND TRADE.

OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, August 19, 1868.

The leading stock operator attacked gold to-day rigorously, and one time brought down the premium to 145; the supposition was that the market would yield to-day to 144, on the large number of short sales early yesterday, and last night but the bull party took all that was offered and the masket reacted; towards the close the market again became weak, and closed at 145¼. The commercial interests of the couutry favor the party, but the excitement in politics and the constantly setting afloat rumors of war in Europe keeps the gold room and a large number of outside speculators disposed to buy, or at least, hold gold, a rally is likely to take place at the close of the week.

Government bonds, although very low, and above average prices of last February, have been bought in limited amounts by Geaman houses, but for what purpose is not known—the feeling is yet bearish.

The stock market seems to have touched bottom in Erie and New York Central, and the next few days may witness a sharp rally in these stocks, but the balance of the list is yet too high in anticipation of a tight money market. The bear element was not strong enough to break the entire market but the next attempt can hardly fail to do so.

The report circulated in Wall street, that there was an over issue of Cleveland and Pittsburgh stock is proved to be false, and the long promised rise is likely to take place within the next few days.

The New York Stock quotations to-day as received by Mr. Ph. R. Mertz, were as follows: Gold 145¼; 1881's, 113¾; 5-20's, 1862, 113; do 1864, 108⅞; do 1865, 111; do new, 107¾; do 1867, 107⅜; 10-40's, 108; Cleveland & Pittsburgh 85¼; Fort Wayne, 105; Western Union Telegraph 53¾; Adams Express, 47⅜; Erie, 52¼.

—The New York *Tribune*, of Tuesday, in commenting on the recent advance in gold, remarks: The speculation for an advance in gold halts. The heavy shipments of bonds and the large amount of produce now going forward has reduced our balance of indebtedness on the other side to a nominal amount, and the heavy amount of cereals yet to be shipped will bring the balance of trade in our favor before the season closes. The commercial value of gold is not rated above 125 by careful business men, and the present exorbitant premium is only maintained by the the distrust of Democratic policy, should it gain control of the Government, and by the reiterated statements of the disturbed condition of the Southern States. This is being constantly magnified by operators, and is the main stay of the bulls in gold. That the rebel feeling is greatly excited by the hopes held out by the Northern wing of the party is undoubted, but no sane man doubts that, on the election of Grant, it will immediately cease, and affairs return to their normal condition. With our superabundant crops, and the good demand that we shall have for them abroad, it will be impossible to maintain gold at the present figures, and could short sales be stopped it would sink quickly to its commercial value.

We also clip the following from the same paper: Money opened with a firmer feeling and a number of banks advanced to 4 per cent. on call; at this rate Government dealers were accommodated. The rate on miscellaneous securities continues at 4 to 5 per cent. with more done at the highest rate. Some of the 3 per cent. Certificates are finding their way to the Sub-Treasury for payment from parties who need the currency, as they cannot be sold at better than par and accrued interest. About $11,000,000 of the maturing compounds have been converted into certificates. The country banks now sending them in desire their payment. As the certificates are payable on demand they supposed that the Sub-Treasurer would also pay the compounds in the same manner. This, however, he declined to do, saying that they must be sent to Washington; so the banks take the certificates, and then go to the cashier and demand the greenbacks, which are then paid. As it now stands, it only causes a temporary delay; but it is a nice specimen of the red-tape operations of the Treasury. The Secretary of the Treasury desires to get all the compounds converted into certificates, but the banks of this city already have as many in hand as they can safely carry, and are not purchasers, and estimate that some $20,000,000 will come to be paid off during the autumn. The shipment of currency west continues active, and the banks to-day shipped large amounts.

—Closing quotations received by James T. Brady & Co.:

S. 6's, 1881's, 113¼; 5-20's, 1862, 112½; 5-20's, 1864, 108¾; 5-20's, 1865, 110⅝; 10-40's, 108; 5-20's, January and July, '65, 107¼; 5-20's, January and July, '67 107; '68, 107½; June 7-30's, par less ⅛ July 7-30's, do ¼ August 118¾; Sept. 118¼ Oct. 118; Union Pacific Railroad, 102; Central 103.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, August 19, 1868.

Business generally seems to be looking up somewhat though there is still plenty of room for improvement. We can report a fair local demand for all of the leading commodities, and for some articles, there seems to be a speculative movement, though as yet the speculative feeling in this market is not very strong.

GROCERIES—There has been more actively manifested in the grocery market this week, and prices for some articles are higher. Syrups are up fully five cents per gallon, and Teas have advanced about ten cents per pound with every appearance of a still further advance. Coffees are a shade easier, under the influence of the decline in gold, though not quotably lower. Sugars are dull in consequence of a partial failure of small fruit crops; and the demand is not near as large as expected. Other articles remain unchanged.

SUGARS—Cuba, 12½c for good grocery 12¾ to 13c for prime; and 14c for choice; Porto Rico—good, 13c; prime, 13½; choice, 14½ to 15c; Clarified Cuba, 14 to 14½c. Refined—Standard Hard, 17½c; A, 16½c; B, 16¼c; Extra C, 15¾c; Sugar House, 10½ to 11.

COFFEE—Rio ranges all the way from 22 to 27c for common to strictly prime. Java 37 to 38c.

SYRUPS—Lovering's $1,05; Silver Drips, $1,05; White Drips, $1,15; medium brands, 75 to 85c; common, 50 to 60c; Booth & Edgar Syrup, 95.

RICE—Rangoon, good, 10c; prime to choice, 11 to 11¼c; Carolina, 12 to 12½c.

MOLASSES—New Orleans, 90 to $1; Cuba, 65 to 70c; Porto Rico, 70 to 85c.

SPICES—Cassia, 80 to 85c; Cloves 50c; Pepper, 38c; Allspice, 35c; Nutmegs, $1,50.

STARCH—Madison, 8c; Silver Gloss, 12½c, and Corn Starch, 13½c.

FRUITS—Layer Rasins, $4,75 per box; Valentia, 20c per lb; Prunes, 17c; Currants, 14c for new.

BAR LEAD—12c; Shot, $3,50 per bag.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBUGH GAZETTE, WEDNESDAY, August 19, 1868.

CRUDE—The Crude market, although more active, continues unsettled and panicky, and both buyers and sellers are very chary in their operations. The former seem inclined to operate on a basis of lower prices in the immediate future, while the latter, although more disposed to sell than they were a few days since, thus far, are unwilling to make concessions in order to effect sales. The sales were: 1,000 bbls for immediate delivery at 13¾c; 600 do at 13⅝c; 1,000 each for October and November at 13½c; 1,000 for December at 13c, and 2,000 bbls, in two lots of 1,000 bbls each, at at $5,15, delivered on cars at Venango city. Later in the the day, there were offers to sell at $5,10, and towards evening, it was thought that a plump offer of $5 would have been sufficient.

REFINED—The market for Refined is also weak and panicky, and while the sales, in the aggregate, were considerably larger than for several days, prices are without important change. Sale of 1,000 for September and October at 33¾c; 500 each same months at 34c; 1,500 in lots, for last half of August at 33c, and 2,000 do at 32¾c. Later in the day it was thought August could have been bought at 32½c, showing a decline of half a cent during the day. It is said that there are but very few good buyers at present prices, and this, more than anything else, tends to retard business; our refiners are becoming very cautious in this respect, and instead of selling to anybody, as has been the case heretofore, they inquire very closely into the standing and antecedents of the buyer.
